AGRICULTURAL DEPARTMENT.

HIGHER AGRICULTURAL CLASS.

[Session 1905-1906.]

Rules for admission.

FOR admission to the Higher Agricultural Class, an applicant must have one of the following qualifications:—

(i) He must have passed the F.E. Examination of the Calcutta University, and be under 23 years of age, but no student will be allowed to join the Agricultural class after the expiration of five years from admission into the Engineering College.

(ii) He must have passed the B.A. Examination of the Calcutta University by the B. course, or possess other sufficient educational qualifications; be under 23 years of age, and, in addition, have received a nomination from the Bengal Government.

(iii) He must have had a general education qualifying him to follow the instruction in the Higher Agricultural Class, and must also receive a nomination from Government for admission as a special student. To be eligible for a nomination under this rule, a candidate must either have landed property of his own, or be recommended by some influential landholder who desires to train him to take part in the management of his estate, or he must otherwise satisfy Government that he intends to make practical use of his agricultural training. Students entering under this rule will be termed Special Agricultural students. They will not be subject to any maximum limit of age, but will not be entitled to the privileges conferred on passed students under rules 12 and 13, even though they should obtain fully-signed diplomas in due course after passing the necessary examinations.

Every candidate for admission to this Department must apply in writing to the Principal not later than the 14th July. The form of application for a nomination, which must be addressed to the Principal, is given in Appendix B. In the event of the form not being properly filled up and accompanied by the necessary certificates, no notice will be taken of the application.

The number to be nominated each year will depend on the accommodation available.

Every applicant, not already a student of the College, must undergo a medical examination by the College Surgeon before admission to this Department. If this officer's report is unsatisfactory, the applicant will not be admitted.

The session begins on the first Monday in November. All students are required to join the College on that day. Any student prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs. 10. No student will be admitted or re-admitted to the College after the month of November, except by special orders of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

COURSE OF INSTRUCTION.

The course of instruction in the Higher Agricultural Class will extend over two academic years.

SCHOLARSHIPS.

Senior scholarships awarded in the Engineer Department are tenable in the Agricultural Department.

One graduate scholarship of Rs. 30 a month, tenable for one year, will be awarded on the result of the examination held at the end of the first academic year.

APPOINTMENTS.

Two appointments annually are assigned to students holding a fully-signed diploma: one in the Provincial Executive Service and one in the Subordinate Executive Service. The right of selection for these appointments will rest with Government, and the students who gained the highest marks at the examination fordiplomas will not necessarily be selected.

ENTRANCE AND TUITION FEES.

Each student in the Higher Agricultural Department will be required to pay an *admission fee* of Rs. 10.

F.E.'s who elect to join the Agricultural Department immediately after passing the F.E Examination are exempted from the payment of this fee, as their names are already borne on the College books.

For the present no tuition fees will be charged to students in the Agricultural Department, except in the case of those joining as special students under rule 3 (iii). The tuition fees for these students will be Rs. 8 a month.

Further particulars may be obtained free on application to the Principal.

Applicants for a lease for a term of years or for a season lease for the irrigation of autumn rice who may require water before the lease has been concluded can obtain a supply on tendering an application for a provisional lease in the form given as Appendix No. III to these rules. This application must be signed in the presence of the Sectional Officer or of some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures should be those of the leading cultivators in the block in question, and they should represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given as Appendix No. VIII to these rules, and shall at once supply water.

47. The chaukidar of the village or such other representative as, with the consent of a majority of the lessees and with the approval of the Subdivisional Canal Officer, may be appointed for the purpose by the Deputy Collector, or other officer in charge of the Revenue Division, in consideration of his giving assistance in the matters noted below, shall be entitled to free irrigation of lands in his own occupation which may be within the boundaries of a block leased for a term of years, or to which water is supplied under a season lease other than a special lease for *dalwa* rice provided for in rule 19, subject to a limit of 3 per cent. on the total area assessed:—

(*i*) In assisting the amin while preparing the assessment papers for land, which it is proposed to lease for a term of years, or for lands which have been irrigated under season leases.

Proposed rules.

tendered to the cultivators through their representative for signature after the adjustment of any matters in dispute with regard to classification or area of land not less than 15 days before the 1st December or subsequent date. Any provisional lease covering the same lands on which a supply of water may have been granted pending the completion of the lease for a term of years shall then become the substantive lease for the season and shall be put in force.

9A. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that certain of them decline to sign the application, the zilladar shall report the matter to the Subdivisional Canal Officer. This officer shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide if the lease may be accepted, excluding the fields in the occupation of the persons who decline to sign or whether the lease shall be declined. The Divisional Canal Officer is authorized to grant a lease when not less than 95 per cent. of the net irrigable area of the block has been signed for. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reason for granting the lease shall be fully recorded.

15. Applicants for a lease for a term of years or for a season lease for the irrigation of autumn rice who may require water before the lease has been concluded can obtain a supply on tendering an application for a provisional lease in the form given as Appendix No. III to these rules. This application must be signed in the presence of the Sectional Officer or of some other responsible officer nominated for the purpose by the Subdivisional Canal Officer.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given as Appendix No. VIII to these rules, and shall at once supply water.

47. Before any lease other than a special lease for *dalwa* rice provided for in rule 19 is entered into, the Deputy Collector or other officer in charge of the Revenue Division shall select as representative of the cultivators a person or persons who must have a direct interest in the land covered by the lease. The selection shall be made with the consent of a majority of the cultivators having an interest in the lease, and in consultation with the Subdivisional Canal Officer. The person or persons so selected shall continue as representative for the village unless he or they resign the office, or unless the Deputy Collector or other officer in charge of the Revenue Division shall, for reasons recorded in writing, remove him or them from the office.

47A. The person or persons so selected are required to give assistance in respect of the following matters:—

(1) To assist the amin while preparing the assessment papers.

It shall be within the discretion of the Deputy Collector or other officer in charge of the Revenue Division to disallow the free irrigation and to recover the rates from the chaukidar or other representative for reasons duly recorded in writing.	48. For such assistance the representative or representatives shall be entitled to the free irrigation of lands in his or in their own occupation which may lie within the lands covered by the lease, subject to a total limit of 3 per cent. of the area assessed. The Deputy Collector or other officer in charge of the Revenue Division may, for reasons recorded in writing, disallow in whole or part such free irrigation, and may recover the rates which would otherwise have been charged, if the assistance required by rule 47A has not been rendered to the best of the ability of the representative or representatives.

MUNICIPAL DEPARTMENT.

THE following letter from the Government of India in the Home Department is published for general information.

E. A. GAIT,
Offg. Secy. to the Govt. of Bengal.

No. 93, dated Simla, the 18th July 1905.

From—H. A. STUART, ESQ., C.S.I., Offg. Secy. to the Govt. of India, Home Dept.,
To—The Secretary to the Government of Bengal, Municipal Department.

I AM directed to address you on the action to be taken at the present stage of the discussion on the Calcutta Improvement Scheme.

2. This project was the outcome of a sanitary survey of the town conducted in 1896 by a number of medical officers under the direction of the local Plague Commission. Their enquiries called prominent attention to the overcrowding of the northern portion of the town. It was pointed out that in one ward the population amounted to 145,000 per square mile as against 36,000 in the city of London; and it was calculated that, in the northern wards generally, 80 per cent. of the total space available was occupied by solid masonry buildings. The Building Commission appointed in 1897 accepted the views of the Sanitary officers, and emphasized the fact that the only remedy lay in extensive structural alterations involving the opening up of new roads and the provision of open spaces. Acting upon their report, the Lieutenant-Governor in July 1899 submitted his first proposals for a scheme of urban improvement.

3. The question has since been continuously under consideration. The difficulty throughout has been to devise a system of finance which would involve neither an excessive addition to local burdens nor an undue transference of these burdens to the general taxpayer. The first suggestion of the Local Government was to find the whole of the net income required, after allowing for recoupment and frontage rates from a tax on consumers of jute. The scheme as now formulated includes a tax on jute, but it is only one item in a programme of special taxation designed to reach every section of the urban population. A substantial contribution is now promised by the Government of India, who further undertake to guarantee the loans to be raised by the Improvement Trust; and the Corporation is to be called upon to contribute certain definite sums, and also to accept a general responsibility for the solvency of the Trust. The extent of the operations contemplated has also been greatly enlarged, the gross capital expenditure being now estimated at nearly 8¼ crores of rupees as against 5 crores in 1899. The necessity for this additional outlay arises from the inclusion of expenditure for open spaces as well as for roads, and from the recognition of the fact that if the work of the Trust is to be permanently effective the persons displaced by these operations must be accommodated elsewhere, while provision must also be made for the normal expansion of the town.

4. The scheme in its present form is mainly the work of a conference convened by the Lieut[illegible] Governor in 1904. On this conference the Government of India [illegible]ted by the Secretaries in the Home and Finance Departments, [illegible]m were then Bengal officers; the Local Government by the L[illegible]vernor, who presided, and by his Financial Secretary; the Corpo[illegible] Chairman, Mr. Greer, and three non-official members, one of who[illegible]ble Mr. E. Cable, was at that time President of t[illegible] Chamber of [illegible], the others being the Hon'ble Dr. Ashutosh Mukhopadhyaya and Mr. [illegible] Bihari Sircar, C.I.E. Three of the members had also been members of the Building Commission already mentioned. The conference was thus representative of the interests of the different classes of rate-payers and also of commerce; and included the best expert knowledge obtainable on questions of urban improvement and local finance.

5. It has been found necessary to suggest alternative forms of taxation in view of the probable abandonment of the scheme of succession duties proposed by the conference; and to provide for the possibility that the railway terminal tax approved by the conference may prove on further examination to be impracticable. To this extent its proposals have been modified or supplemented and new elements have been introduced which call for further examination by the Local Government and its advisers; but the main outlines remain unchanged.

The conditions of the case have involved throughout these earlier stages a reticence as to their intentions which both the Government of India and the Local-Government would have been glad to avoid. And though they have meanwhile obtained such help as was possible from local knowledge and non-official advice they are impressed with the importance of submitting the scheme to a wider circle of criticism. They think that the time has now come when nothing further can be gained from confidential discussion, and that the whole scheme should be laid before the Corporation, and other representative bodies and the public generally, for examination and opinion. To assist the authorities consulted they have caused a detailed abstract of the measures suggested to be prepared in the memorandum which forms an enclosure to this letter. They desire to add that the scheme is to be regarded as provisional, and they will welcome any criticism, whether on the administrative or the financial aspect of the proposals, which may be designed to secure increased efficiency or a more satisfactory distribution of the burdens and sacrifices which the scheme involves.

6. I am now to request that, with the consent of His Honour the Lieutenant-Governor, the various public bodies concerned may be consulted on these proposals and that this letter and its enclosure may be published for general information. I am also to ask that the unsettled questions or points of detail mentioned in paragraphs 13, 16 and 19-21 of the memorandum may be further examined in the light of the remarks there made, and that the report of the Lieutenant-Governor on these matters, together with his final recommendations, may be communicated to the Government of India after he has had an opportunity of considering the opinions of the representative bodies whom it is proposed to consult.

CALCUTTA IMPROVEMENT SCHEME: ANALYSIS OF PROPOSALS.

ADMINISTRATION.

Agency to be employed.

THE improvements will be carried out by a Trust constituted by an Act of the Lieutenant-Governor's Legislative Council.

Constitution of Trust.

2. The Trust will consist of a President and six Trustees, all appointed by the Government. The Chairman of the Corporation will be a Trustee *ex-officio*; two Trustees will be Municipal Commissioners, and one will be a member of the Chamber of Commerce.

Operations of Trust.

3. The primary functions of the Trust will be—

(1) To construct new roads and improve existing roads.
(2) To provide open spaces.
(3) To provide accommodation for persons displaced by the foregoing operations, and also for the probable normal growth of population for a generation.
(4) To control, by means of building regulations, areas in the neighbourhood of those which have been acquired.

[*Note.*—(*i*) For the remodelling of the Calcutta *bastis* the Corporation will remain responsible, and this work will not be undertaken by the Trust except indirectly where it acquires land in a *basti* for the alignment of a new road or the provision of open spaces.

(*ii*) It is contemplated that the Trust should as far as possible limit itself to providing land for sites and not itself undertake the erection of dwelling houses.]

4. The Trust will also—

(1) Furnish the areas acquired with municipal conveniences, such as water, lighting and communications.
(2) Enforce sanitary conditions by requiring structural alterations of individual houses upon the motion of the General Committee of the Corporation followed by an order from a Magistrate.
(3) Acquire surplus lands, with a view to recoupment by their subsequent sale or lease.

Duration of Trust.

5. The Trust will be wound up and its assets and liabilities transferred to the Corporation as soon as the scheme of work is completed.

Meth[illegible] [illegible]d Scope.

6. (1) No detailed scheme [illegible] prepared beforehand, as such a scheme would only be provisional [illegible] [illegible]ld facilitate fictitious claims.

(2) The general worki[illegible] plan will be—

(*a*) as regards roads, to traverse the area selected for operations by a system of roads 60 feet wide, some running north and south and others running east and west, with diagonal connections;

(*b*) as regards provision of open spaces, to acquire for this purpose areas of which a larger proportion than one-third is covered by buildings, and to remove buildings to such extent as may be necessary to reduce the proportion to not less than one-third. The unit to be dealt with will be about 40 acres;

(*c*) as regards acquisition of land for expansion, to select strips of land in the directions of probable expansion, as far as practicable, within the municipal limits of Calcutta, and otherwise in the adjacent suburban municipalities.

(3) The amount of work to be done is indicated by the following provisional and tentative figures:—

(*a*) roads to be constructed—15 miles;

(*b*) open spaces to be acquired at a probable cost, as mentioned below, of 172 lakhs of rupees;

(*c*) land to be acquired for expansion—2,000 acres, an area estimated to provide for a surplus population of 200,000 or more.

[*Note*.—If inadequacy of funds should necessitate the reduction of this programme, it is contemplated that operations under head (*b*) would probably be selected for curtailment.]

(4) Rate of progress.—These operations will take the form of separate schemes, each requiring the sanction of Government, which will be given with due regard to the actual and prospective assets of the Trust as determined by the experience gained up to the time at which each separate scheme is submitted. If receipts do not come up to anticipations the programme must be correspondingly curtailed. Otherwise it is expected to be completed in 20 years.

FINANCE.

Capital and loan transactions.

7. These are indicated in the following account:—

Charges.	Rs. lakhs.	*Receipts.*	Rs. lakhs.
On roads	500	Recoupment and recoveries from frontage owners.	336
On open spaces ...	172	Government grant ...	50
On land for expansion ...	100	Loans	436
On improvement of this land	50		
Total ...	822	Total ...	822

8. *Explanations*—

(*i*) The estimated expenditure on roads (Rs. 33 lakhs per mile) is based on the actual results obtained in the case of Harrison Road.

(*ii*) The sum allotted for open spaces represents the amount which it is hoped may be available after providing for an adequate scheme of road construction, re-housing and expansion, and subject to the limitation of aggregate expenditure to a sum within the resources of the town.

(*iii*) The estimate for acquisition of land (Rs. 5,000 per acre) was adopted after enquiry as to the value of land in selected areas.

(*iv*) The estimate for improvement includes the provision of municipal conveniences [*vide* paragraph 4 (1) above].

(v) *The item of Rs. 336 lakhs on the receipt side represents half of the anticipated expenditure on roads and open spaces (Rs. 500 + 172 lakhs). It is contemplated* that the Trust should either (a) recoup itself by taking up excess land and re-selling it at the higher price to be expected for land brought into proximity with a new thoroughfare; or (b) that it should follow the methods of the Prusian Street Alignment Law, which dispenses with the procedure of acquisition and resale of excess land, and authorises the recovery of a maximum of half the cost incurred in providing a new road directly from the owners of land adjacent to it. It is claimed for the latter alternative that it tends to eliminate the speculative element and also enforces the principle that a new street benefits the adjacent owner specially as well as the community generally. It is not necessary that the same method should be adopted throughout the city.

[*Note.*—As stated in paragraph 4 (3) above, it will be open to the Trust to lease the excess lands instead of reselling them where the latter course is less advantageous. But for purposes of calculation it is convenient to treat recoupment operations entirely under capital account.]

(vi) The Government grant of Rs. 50 lakhs has been approved by the Secretary of State, and takes the place in the Calcutta scheme of the substantial assistance given to the Bombay Improvement Trust by the grant of vacant Government lands and reclamation rights.

(vii) The loans will be repayable in 60 years and will be guaranteed by the Government of India. This guarantee will be given subject to certain conditions regarding the contributions to be paid by the Corporation and its ultimate financial responsibility for the Trust which are explained in paragraph 11 below.

Revenue Account.

9. The revenue account broadly indicated in the following statement:—

Expenditure.	(Omitting 000).	Revenue.	(Omitting 000).
	Rs.		Rs.
Annual charge for interest and sinking fund.	20,35	Return from land taken up for housing and expansion.	3,00
Cost of management ...	1,00	Contributions and taxation ...	18,35
Total ...	21,35	Total ...	21,35

Explanations.

10. (i) The estimate for interest and sinking fund is based on the assumptions that the loans are floated at 4 per cent. and that the sinking fund is invested at an average rate of 2¾ per cent.

(ii) The item "Cost of management" includes *inter alia* the President's salary which the Conference proposed to place at a maximum of Rs. 3,000 per mensem, supplemented if the Local Government thinks fit, by a house allowance not exceeding Rs. 500 per mensem.

(iii) The estimate of "Return from land" is based on an assumed return of 2 per cent. on the total cost (Rs. 100 + 50 lakhs) of acquiring and improving land for housing and expansion. It will be open to the Trust to re-sell the land acquired instead of leasing it. (*Cf.* the converse case of recoupment by leases instead of re-sale).

(iv) The income from "Contributions and taxation" will be made up of (1) Contributions paid by the Corporation, and (2) Special taxation. The general principles under which it is proposed to distribute the burdens involved are (a) that an appreciable share of the immediate financial burdens, and complete financial responsibility in the event of default on the part of the Trust, must devolve upon the Corporation; (b) that as the improvement scheme will not to any important extent relieve the Corporation of its ordinary expenditure on the provision of municipal requirements, it must be financed in a large measure by special taxation; and (c) that the burden of taxation should be distributed as evenly as possible among the different classes benefited.

Contributions by Corporation.

11. The Corporation may contribute to the revenues of the Trust (a) from the normal growth of municipal revenues; (b) by the allocation to the Trust of revenue set free from time to time by the discharge of existing municipal loans; (c) by raising existing municipal taxes; and (d) from new taxation.

As regards (a), it is proposed that the Corporation should undertake to contribute 1½ per cent. on the rateable value of lands and buildings (estimated yield Rs. 3,60,000).

As regards (b) two alternative proposals have been considered by the Government of India.

The first is that the following amounts which become available by the liquidation of loans on the dates mentioned against each should be diverted to the purposes of the Trust. The second is that the first item only should be so diverted:—

(i)	Rs.	4,64,000	available on	31st December 1908.
(ii)	„	45,500	„	1st August 1908.
(iii)	„	65,920	„	1st May 1909.
(iv)	„	1,26,890	„	1st December 1910.
(v)	„	1,60,000	„	1st December 1911.
Total ...	„	8,62,310		

For the reasons indicated under clause (iv) (*b*) of paragraph 10 the Government of India prefer the second proposal.

As regards (*c*), there has been much discussion. The consolidated rate is now assessed at 19½ per cent. on rateable value; the present legal maximum is 23 per cent. It has been represented that the margin between present and maximum rates must be regarded as hypothecated to drainage and water works schemes already contemplated. The Government of India are disposed to agree that the rates should not be made the mainstay of the improvement scheme, and with the possible exception* to be explained below they do not propose to call for any immediate addition to the rates now levied or for any increase in the legal maximum.

As regards (*d*) the Government of India are disposed to question whether the Corporation can meet the first of these demands (the 1½ per cent. contribution) as well as set aside so large a sum (Rs. 4,64,000) from loan payments unless new sources of revenue are placed at its disposal. They think it perferable, however, subject to the exception* already referred to, that the additional resources should be obtained from new taxation rather than from an addition to the consolidated rate. They accordingly propose that taxes should be imposed on petroleum† and also upon transfers† of immoveable property. The proceeds of these taxes will be credited to the Corporation.

The payment of the municipal contribution of 1½ per cent. on rateable value will also be secured in the manner provided in section‡ 72 of the City of Bombay Improvement Act, 1898.

Further, in the event of default on the part of the Trust in respect of loan instalments or sinking fund investments, the Corporation will be liable for the default in the manner prescribed by sections‡ 80—82 of the Bombay Act, under which the amount in default may be withdrawn from the municipal fund and set aside for the service of the loan, and a special tax may then be imposed to repay the sum withdrawn from the municipal fund.

12. The foregoing proposals may be thus summarized:—

(*i*) The Corporation will contribute a fixed amount (Rs. 4,64,000), *plus* a fluctuating amount (1½ per cent. on rateable value, now calculated to yield Rs. 3,60,000), to the revenues of the Trust.

(*ii*) The revenues of the Corporation itself will be supplemented by new taxes on petroleum and on transfers on immoveable property, to enable it to meet the second of these charges.

(*iii*) The contribution of 1½ per cent. will be further secured as explained above on the consolidated rates.

(*iv*) The Corporation will be liable for default on the part of the Trust.

13. The following information is added regarding the two municipal taxes above proposed:—

Transfer duty.—A duty on transfers was first suggested as an adjunct to the succession duty (*vide* paragraph 18 below) and to prevent evasion of the latter. As a tax standing by itself, it appears to be free from the objections which are held to make a succession duty impracticable. Being a tax on immoveable property, it is a suitable alternative to the enhancement of the rates which would otherwise become necessary if the Corporation were at any time unable to maintain its contributions. It is proposed to levy the tax at the rate of 1 per cent. on sales, gifts and usufructuary mortgages. The estimate of yield based on the recorded figures of gifts and sales only is Rs. 2,60,000. Separate statistics of usufructuary mortgages are not readily obtainable. The details generally require to be further worked out.

The Government of India would be prepared to consider whether the tax should not be levied at 2 per cent., the additional 1 per cent. being substituted for the owners' rate suggested in paragraph 17 below. But they are inclined to prefer the latter tax, as the yield would be less liable to fluctuations.

Petroleum tax.—The Conference considered a proposal to impose a tax on petroleum. At the rate of 4 annas per 10 gallons it was estimated to yield Rs. 1½ lakhs. This article is already taxed for Imperial purposes at a high rate (15 to 20 per cent. *ad valorem*). Further objections are that the yield would be uncertain; the tax would be somewhat difficult to collect; and it would press with special weight on the poor. The Conference rejected it largely on the last ground. If it is decided to adopt the railway terminal tax (*vide* paragraph

* See para. 17, "Special owners' rate."
† See para. 13 below.
‡ *Vide* Appendix A to this memorandum.

19 below) by which the poor would be effectively reached, the Government of India would prefer not to impose a tax on petroleum, and it would probably be possible also to reduce the contribution to be demanded from the Corporation. Otherwise they consider that the pretroleum tax is required. Such a tax was approved by the Secretary of State at an earlier stage of the discussion and provision for such taxation already exists in the Calcutta Municipal Act.

Proposals for special taxation.

14. Under the above scheme the Corporation will provide Rs. 8,24,000 out of the total sum (Rs. 18,35,000) required from contributions and taxation. The remainder (Rs. 10,11,000) must be obtained from the proceeds of special taxation on behalf of Trust funds. The following suggestions for special taxation have at one time or another been put forward.

15. *Jute Tax.*—The Conference of February 1904 approved a proposal to levy an export duty of ¼ per cent. on the value of jute shipped from Calcutta, coupled with an excise on jute locally purchased (estimated yield Rs. 5,00,000). To prevent evasion a similar tax must be imposed on jute shipped from Chittagong, the proceeds of which will go to that port. This proposal has been minutely scrutinized. It has been criticized as a tax which will be paid by consumers of jute abroad and all over India, and which is therefore more suited for imperial than for local purposes. On the other hand it is contended that Calcutta is the financial and administrative head-quarters of the jute trade, both in respect of the raw material and of the manufactured product; that though the jute mills and presses being situated for the most part just outside Calcutta municipal limits escape municipal taxation on the metropolitan scale, the Companies have their head-quarters and are managed and financed in Calcutta itself; that they employ some 97,000 operatives who with their dependents enjoy the municipal conveniences of the town and contribute largely to its congestion, but practically pay no municipal taxes.

The tax is too small to injure the trade. It can be shown for example that the increase of 45 per cent. in the price of raw jute which occurred between 1898 and 1900 did not affect the exports. The fibre is in fact a *quasi* monoploy and a small duty is not likely appreciably to accelerate the discovery of a substitute. It is also to be noted that of the total export of jute only one-twentieth is consumed in India and about one-third only goes to the United Kingdom.

The Government of India appreciate the wider issues which the imposition of such a tax opens up, but they are satisfied that its net advantages exceed those of any alternative forms of taxation which could be proposed. They have accordingly recommended its adoption to the Secretary of State, and it has been provisionally approved by him.

It has been suggested that in imposing the tax the Government should take power to fix tariff values or to convert the *ad valorem* into an appropriate specific duty.

16. *Additional income-tax.*—Following continental precedents, the Conference recommended the addition for the purposes of the Trust of half a pie per rupee to the existing income-tax which is levied at the rate of 4 and 5 pies per rupee of income as the case may be The yield is estimated at Rs. 2 lakhs. The tax possesses the merit of reaching classes who profit greatly by the business facilities of Calcutta, but are not easily reached by other forms of taxation.

The tax has been provisionally approved by the Secretary of State. It is not intended to levy it on the interest on Government securities. The details remain to be worked out, and certain practical difficulties will require consideration by the Local Government, *e.g.*, the case of persons residing in Calcutta for a part only of the year, and the case of firms assessed in Calcutta on the income of branches in other places.

17. *Special owners' rate.*—The Local Government has proposed a special rate of 1 per cent. on rateable value to be assessed exclusively on owners. The Government of India agree that some share of the special taxation which the scheme involves should be of a kind which falls directly on owners, who will benefit by the improvement of the town. On the other hand, it is argued that the tax will be new in form and therefore more unpopular; that its ultimate incidence like that of the consolidated rates (assessed half on owners and half on occupiers) will be really determined by the conditions of supply of and demand for houses in each locality; and that therefore it would be preferable to add 1 per cent. to the consolidated rates to which the people are accustomed. The Government of India think that, in the probable event of the succession duty being abandoned, one of these alternatives should be adopted. The yield in either case should be about Rs. 2,40,000.

18. *Succession Duty.*—The Conference proposed a succession duty on immoveable property in Calcutta on a graduated scale working out to a mean rate of 5 per cent. on market value; and took credit in their scheme of finance for a revenue of Rs. 6,50,000 from this source and from a duty on transfers. The proposal was further examined in February 1905 by an informal Committee of legal experts (the Hon'ble the Advocate-General presiding), who reported that the proposal was beset by grave practical difficulties, the chief being those of dealing with the joint-family system and with corporations. In view of these objections the Government of India are disposed to think that the special owner's rate referred to in paragraph 17 is preferable.

19. *Railway terminal tax.*—The Conference recommended the imposition of a terminal tax on railway passengers arriving at or leaving the Calcutta stations, including Howrah. They

estimated the number of passengers at over 10,000,000 per annum, and calculated that a tax of one-half anna per head with a substantial reduction for daily passengers would yield Rs. 2½ lakhs. The tax would fall to a large extent on the poor whom it is in fact desirable to reach by one or other of the special taxes to be imposed. It is argued that the taxation of suburban transportation is opposed to the essential principle of a scheme of city improvement, a main object of which is to encourage the dispersion of the population from the centre to new or existing suburbs. On the other hand, there are precedents for such taxation both in India and elsewhere, and in a scheme which at the best must require heavy and conscious sacrifices from the tax-payer the advantages of a tax which is easily collected and not severely felt are not lightly to be set aside. On the whole, the Government of India are disposed to reserve their opinion till the proposal has been submitted for public criticism and also examined further by the Local Government and by representatives of the railway companies affected. For the tax to be admissible at all, it will be essential to prevent unfair competition with other means of transportation by imposing a similar tax on passengers by river steamer; and also to devise some practicable method of restricting its incidence on the daily passenger within moderate limits.

20. *License-fee on import of timber and firewood.*—This and the next tax, both of which are in force in Madras, were suggested at a late stage of the discussion, and their probable yield and suitability to the conditions of Calcutta have not yet been examined. The timber and firewood tax in Madras, levied at the rate of Rs. 5 per ton on timber and 6 annas per ton on firewood, yields about Rs. 1⅓ lakhs net per annum.

21. *Tax on animals slaughtered for food.*—In Madras this tax, collected under contract, yields about Rs. ½ lakh per annum.

22. The following statement indicates the extent to which the taxes proposed will suffice to supply the revenue required:—

		Rs.
(*a*) Income required from special taxation		10,11,000
(*b*) Estimated yield of proposed taxes—	Rs.	
Jute tax	5,00,000	
Additional income-tax	2,00,000

Railway terminal tax	2,50,000*	
Tax on timber and firewood	(Not yet estimated.)	
Tax on animals	(Ditto .)	

General Summary.

23. The scheme involves a capital expenditure of Rs. 822 lakhs. The persons whose land is improved are expected to repay to the Trust Rs. 336 lakhs capital, while those who are served by the housing operations will pay Rs. 3 lakhs per annum, *i.e.*, Rs. 2 lakhs per annum (sufficient in 60 years to repay a loan of Rs. 42 lakhs) and the cost of management (Re. 1 lakh per annum). The capital outlay may therefore be regarded as thus distributed:—

	Rs. Lakhs.
Persons directly benefited, Rs. 336 + 42 lakhs = ...	378
Residents of Calcutta	394
The general taxpayer	50
Total ...	822

Thus no part of the cost of management and less than half the capital charges fall on the local taxpayer.

24. The comparative lightness of the burden in relation to the magnitude of the operations involved is the more noticeable when the scheme of taxation comes to be analysed. The repayment of Rs. 394 lakhs involves an annual charge of Rs. 18,35,000. Of this amount it is contemplated that over Rs. 4 lakhs† will be obtained from the Corporation without additional taxation, and Rs. 5 lakhs from the tax on jute, by far the greater proportion of which will probably be borne by consumers beyond Calcutta. The special additional taxation falling ultimately on Calcutta represents in fact only about one-quarter of the whole cost of the scheme.

25. In the event of the estimates of return of capital outlay or of revenue proving to have been materially overstated, the ultimate financial responsibility falls on the Calcutta ratepayer. But serious miscalculation can be avoided by proceeding cautiously and experimentally, and restricting the programme of work with reference to the financial results actually obtained.

Sub-enclosure.—Appendix A.—Extract from City of Bombay Improvement Act, 1898.

FINANCIAL DEPARTMENT.

NOTIFICATIONS.

No. 270-O.—The 31st July 1905.—It is hereby declared that a competitive examination for three appointments in the Opium Department will be held in February 1906. At this examination only such European and Eurasian candidates as have been nominated by the Lieutenant-Governors of Bengal and the United Provinces of Agra and Oudh, each of whom is authorized to make as many nominations as he considers necessary or desirable (those made by the Lieutenant-Governor of the United Provinces being subject to ultimate approval by the Lieutenant-Govenor of Bengal), will be permitted to present themselves.

It must be clearly understood by competitors that the candidates who may be declared successful will not be entitled to obtain permanent appointments in the grade of Assistant Opium Agents, until permanent vacancies occur in that grade, nor until they have complied with the conditions of rule 12, but it is the intention of Government to appoint them at once to duty in the Department as Officiating Assistant Opium Agents on a salary of Rs 200 a month each If within two years of their appointment they succeed in passing the departmental examinations, and are well reported on, and there are no vacancies in the Department at the time, they will be allowed to draw Rs. 250 a month each from the date of passing such examinations; and on being subsequently appointed to substantive posts, they will be allowed to count service for promotion from the date on which they commenced to draw Rs. 250 a month. Pending such substantive appointment they will remain on a probationary footing and will have no claim to permanent appointment unless their work continues satisfactory.

The pay of officers of the Opium Department will rise, with length of service, according to the following scale and the rules governing service in that Department:—

Years of approved service.	Pay. Rs.
1, 2, 3, 4 (commencing from the date on which departmental examinations are completely passed) ...	250
5, 6, 7	300
8, 9, 10	350
11, 12, 13, 14	400
15, 16, 17, 18	500
19, 20, 21, 22	600
23, 24, 25, 26	700
27 and upwards	800

Promotion to the two highest grades of Sub-Deputy Opium Agent on Rs. 900 and Rs. 1,000 will be made by selection for ability and good service.

2. A certificate of health and physical fitness, signed by a covenanted medical officer in the form given in the margin, will be required from each candidate, who should also furnish a copy of his baptismal certificate, in the absence of which sufficient evidence as to age should be forwarded with the application for admission to the examination. No one whose age will be below 19 years on the 1st February 1906, or above 22 years on the 1st March 1906, will be permitted to appear.

> I do hereby certify that I have examined Mr. , a candidate for employment in the Opium Department, and that he has no disease, affection, or bodily infirmity, and is, in my opinion, possessed of a robust constitution well fitted for the performance of the duties appertaining to such an appointment. His age is, according to his own statement, years and by appearance years.

Such applicants as are granted nominations will receive an intimation to that effect, and be required to pay a fee of Rs. 20 before they can appear at the examination. The fee is payable to the Secretary aforesaid.

5. The examination will be held in Calcutta; the date and place of the examination and the order in which the different subjects will be taken up will be notified hereafter to such candidates as are allowed to present themselves at the competition.

Candidates who fail to obtain half the marks in each and all of the three subjects of the preliminary examination shall not be allowed to proceed further with the examination in the remaining subjects. Such drums or receptacles must be packed in strong wooden cases, the thickness of the wood being not less than half an inch. Provided that wooden cases shall not be necessary when the drums or receptacles are made of tin, galvanized-sheet iron, or steel, and have the following thickness of metal :—

(3) when the capacity exceeds 4 gallons	16 B. W. G.

(*b*) An air space of at least one-tenth of its capacity must be left in each drum or receptacle.

(*c*) The drums or receptacles must be so substantially constructed and secured as not to be liable, except under circumstances of gross negligence or extraordinary accident, to be broken or become defective, leaky or insecure.

(*d*) Before any vessel which contains or has contained dangerous petroleum is repaired by the licensee, or is sent by him to be repaired, the vessel shall, as far as practicable, be cleared of all dangerous petroleum and of all dangerous vapours arising from the same.

(*e*) The building in which the petroleum is to be stored must be constructed of masonry or other uninflammable material, with terraced, tiled or iron roof and a tiled, paved or earthen floor.

(*f*) Either (*1*) the doorways and other openings of such building must be built up to such a height above the level of the road or street, or the floor thereof must be sunk to such a depth below the level of the road or street, that the petroleum stored in it cannot flow out of the building in case of its escape from the receptacles in which it is contained, *or* (*2*) the building must be surrounded with a masonry wall or embankment sufficiently high to contain all the petroleum in the building in case of its escape therefrom: Provided that combination of methods (*1*) and (*2*) may be adopted.

(*g*) All ventilating openings in such building must be protected by strong wire gauze.

(*h*) No smoking or light or fire of any description shall be permitted at any time within or near any such building.

(*i*) All due precautions must be taken for preventing (*1*) accidents by fire or explosion and (*2*) access by unauthorised persons to any dangerous petroleum or to any vessels containing or intended to contain or having actually contained the same.

(*k*) The said building shall be liable to inspection by an officer authorised in this behalf.

(*l*) No drum or other receptacle containing dangerous petroleum shall be opened or the petroleum drawn off within the room in which the stock of petroleum is kept.

Such drums or receptacles must be packed in strong wooden cases, the thickness of the wood being not less than half an inch. Provided that wooden cases shall not be necessary when the drums or receptacles are made of tin, galvanized-sheet iron, or steel, and have the following thickness of metal :—

	Not less than
(1) when the capacity does not exceed 2 gallons ...	25 B. W. G.
(2) when the capacity exceeds 2 gallons, but does not exceed 4 gallons	22 B. W. G.
(3) when the capacity exceeds 4 gallons	16 B. W. G.

(*b*) An air space of at least one-tenth of its capacity must be left in each drum or receptacle.

(*c*) The drums or receptacles must be so substantially constructed and secured as not to be liable, except under circumstances of gross negligence or extraordinary accident, to be broken or become defective, leaky or insecure.

(*d*) Before any vessel which contains or has contained dangerous petroleum is repaired by the licensee, or is sent by him to be repaired, the vessel shall, as far as practicable, be cleared of all dangerous petroleum and of all dangerous vapours arising from the same.

(*e*) The building in which the petroleum is to be stored must be constructed of masonry or other uninflammable material, with terraced, tiled or iron roof and a tiled, paved or earthen floor.

(*f*) Either (*1*) the doorways and other openings of such building must be built up to such a height above the level of the road or street, or the floor thereof must be sunk to such a depth below the level of the road or street, that the petroleum stored in it cannot flow out of the building in case of its escape from the receptacles in which it is contained, *or* (*2*) the building must be surrounded with a masonry wall or embankment sufficiently high to contain all the petroleum in the building in case of its escape therefrom: Provided that combination of methods (*1*) and (*2*) may be adopted.

(*g*) All ventilating openings in such building must be protected by strong wire gauze.

(*h*) No smoking or light or fire of any description shall be permitted at any time within or near any such building.

(*i*) All due precautions must be taken for preventing (*1*) accidents by fire or explosion and (*2*) access by unauthorised persons to any dangerous petroleum or to any vessels containing or intended to contain or having actually contained the same.

(*j*) Every person managing, or employed on or in connection with, the building in which the petroleum is stored shall abstain from any act whatever which tends to cause fire or explosion and the doing of which is not reasonably necessary, and shall prevent any other person from doing any such act.

(*k*) The said building shall be liable to inspection by an officer authorised in this behalf.

(*l*) No drum or other receptacle containing dangerous petroleum shall be opened or the petroleum drawn off within the room in which the stock of petroleum is kept.

(a) The petroleum must be stored in gas-tight tin or galvanized-sheet iron, steel or lead-plate drums or receptacles, each containing not more than 10 gallons and fitted with well-made filling holes and well-fitting screw-plugs or fitted with screw-cap with metal air-tight under-cap. Such drums or receptacles must be packed in strong wooden cases, the thickness of the wood being not less than half an inch. Provided that wooden cases shall not be necessary when the drums or receptacles are made of tin, galvanized-sheet iron, or steel, and have the following thickness of metal :—

	Not less than
(1) when the capacity does not exceed 2 gallons ...	25 B. W. G.
(2) when the capacity exceeds 2 gallons, but does not exceed 4 gallons	22 B. W. G
(3) when the capacity exceeds 4 gallons	16 B. W. G

(b) An air space of at least one-tenth of its capacity must be left in each drum or receptacle.

(c) The drums or receptacles must be so substantially constructed and secured as not to be liable, except under circumstances of gross negligence or extraordinary accident, to be broken or become defective, leaky or insecure.

(d) Before any vessel which contains or has contained dangerous petroleum is repaired by the licensee, or is sent by him to be repaired, the vessel shall, as far as practicable, be cleared of all dangerous petroleum and of all dangerous vapours arising from the same.

(e) The building in which the petroleum is to be stored must be constructed of masonry or other uninflammable material, with terraced, tiled or iron roof and a tiled, paved or earthen floor.

(*f*) Either (*1*) the doorways and other openings of such building must be built up to such a height above the level of the road or street, or the floor thereof must be sunk to such a depth below the level of the road or street, that the petroleum stored in it cannot flow out of the building in case of its escape from the receptacles in which it is contained, *or* (*2*) the building must be surrounded with a masonry wall or embankment sufficiently high to contain all the petroleum in the building in case of its escape therefrom: Provided that combination of methods (*1*) and (*2*) may be adopted.

(*g*) All ventilating openings in such building must be protected by strong wire gauze.

(*h*) No smoking or light or fire of any description shall be permitted at any time within or near any such building.

(*i*) All due precautions must be taken for preventing (*1*) accidents by fire or explosion and (*2*) access by unauthorised persons to any dangerous petroleum or to any vessels containing or intended to contain or having actually contained the same.

(*j*) Every person managing, or employed on or in connection with, the building in which the petroleum is stored shall abstain from any act whatever which tends to cause fire or explosion and the doing of which is not reasonably necessary, and shall prevent any other person from doing any such act.

(*k*) The said building shall be liable to inspection by an officer authorised in this behalf.

(*l*) No drum or other receptacle containing dangerous petroleum shall be opened or the petroleum drawn off within the room in which the stock of petroleum is kept.

(*m*) The filling or replenishing of any vessels with dangerous petroleum shall not be carried on, nor shall the contents of any such vessel be exposed, in the presence of fire or artificial light, except a light of such strength, position and character as is not liable to ignite any inflammable vapour arising from the petroleum; and no artificial light shall be brought within dangerous proximity of the place where any vessel containing dangerous petroleum is kept.

Specification of land disforested.

Name of Reserve disforested.	District.	Tahsil.	Mauza.	Area in acres.

BOUNDARIES.

North.—A demarcated line joining the Tista River and Buri Tista or Sidabari nadi; then this nadi for about 1·8 miles; then a demarcated line east, crossing the Bogdubra Jhora and Gazliduba-Jalpaiguri Road; then running parallel to this road for ¼ mile; then again running west and recrossing the road to the Gazliduba nadi.

East.—A demarcated line, starting from pillar No. 274 on the boundary where it crosses the Gazliduba nadi, first, in an easterly and then in a southerly direction for about two miles till it again meets the boundary at pillar No. 133; then round the Sidabari jote till it crosses the Apalchand nadi.

South.—The Apalchand nadi.

West.—The Tista river.

Brief description.—A narrow strip of riparian forest, running along the east bank of the Tista river, lying mainly between that river on the west and the Buri Tista and Apalchand nadis on the east. The forest contains mainly *khair*, *sissu* and mixed species of trees, a considerable quantity of grass land and a few *sál* trees on the east. It is chiefly of value on account of the grazing near the Tista.

Reasons for disforestation.—It has been held that the greater part, viz., 2,159 acres of this area, lies within the Baikuntpur estate according to the boundary of that estate as laid down by the Department of Survey of India in 1903. A few small acres outside this boundary line have been disforested, as they are too scattered and contain too few trees of sufficient value to be worth retaining as Reserved Forest.

No. 2526T.R.—The 24th August 1905.—Under section 3 (17) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, the Lieutenant-Governor is pleased to authorise Maulvi Mahamad Chainuddin, M.A., Sub-Deputy Collector, to discharge the functions of a Revenue Officer in the districts of Murshidabad, Birbhum and Burdwan under the provisions of that Act, so far as they relate to Revenue Officers.

RESOLUTION—By the Government of India, Public Works Department.

Improvement in the pay of the Administrative Officers of the Engineer Establishment, Public Works Department.

READ—

Despatch No. 131 (Financial), dated the 27th April 1905, to the Secretary of State for India.

Despatch No. 45 (Public Works), dated the 4th August 1905, from the Secretary of State for India.

The Government of India have for some time past realised that the small increase in the pay of the 2nd and 3rd classes of Superintending Engineers sanctioned in Public Works Department Resolution No. 293-G., dated 1st March 1900, did not possess the element of finality, and that a further substantial improvement in the pay of the Administrative grades of the Public Works Department was urgently demanded in order, first, to maintain that high standard of efficiency which is absolutely essential in a service controlling a vast system of State Works and, secondly, to check the tendency to premature retirement so as to retain, for the full term of an Indian career, officers of the highest professional attainments whose ripe experience is of the utmost value to the Administration. With these objects in view the Government of India have obtained the sanction of the Secretary of State to the following arrangements, viz. :—

(*a*) The grade of third class Chief Engineer is abolished, and the scale of pay will be Rs. 2,750 and Rs. 2,500 for the 1st and 2nd classes of Chief Engineers, respectively. The distribution between the two classes will be equal, an excess of one falling in the lower class.

(*b*) The pay of the Superintending Engineer classes shall be—

	Rs.
1st class	2,000
2nd „	1,750
3rd „	1,500

The distribution between the three classes will be equal, an excess of one falling in the second class and an excess of two in the second and third classes.

(*c*) Local allowances of Rs. 250 and Rs. 150 a month will be attached to the posts of Secretary to Local Governments and Administrations: the former amount will be drawn, in addition to the pay of rank, by a Chief Engineer who is also a Secretary to a Local Government, and the latter by a Superintending Engineer when Secretary to a minor Administration.

(*d*) The pay of the Secretary to the Government of India in the Public Works Department will be raised from Rs. 3,000 to Rs. 3,500 a month.

These changes will have effect from the 21st August 1905, and all officers holding rank, either permanent or temporary, in the old third class of Chief Engineer, now abolished, will from that date rank as Chief Engineer, second class, permanent or temporary, as the case may be.

To the Governments of Madras and Bombay, Public Works Department.
To the Governments of Bengal, the United Provinces of Agra and Oudh, the Punjab and Burma, Public Works Department.
The Honourable the Chief Commissioners of the Central Provinces and Assam.
The Chief Commissioner of Coorg.
The Honourable the Resident at Hyderabad.
The Honourable the Agents to the Governor-General for Central India, Rajputana and Baluchistan
The Honourable the Agent to the Governor-General and Chief Commissioner, North-West Frontier Province.
The Accountant-General, Public Works Department.
The Secretary, Railway Board.

ORDER.—Ordered that this Resolution be circulated to the Local Governments, Administrations and Officers noted in the margin for information and guidance, and that it be published in the *Gazette of India.*

IRRIGATION DEPARTMENT.

The 4th September 1905.

No. 22.—Notification.—It is hereby notified for general information that the Hon'ble the Lieutenant-Governor of Bengal proposes, under the provisions of Sections XI and XII of Act V (B.C.) of 1864, to pass the following Rules in supersession of those now in force on the Nadia Rivers, with effect from the 15th November 1905 :—

PROPOSED RULES.

The rules shall apply to the undermentioned navigable channels, which are included under the designation "Nadia Rivers," viz.:—

(1) the river Bhagirathi, throughout its whole course from the Ganges to Nadia, or to its junction with the Hooghly ;
(2) the river Hooghly, from Nadia to its junction with the river Mathabhanga ;
(3) the river Jalangi, from the Ganges to Nadia ;
(4) the river Bhairab, from the Ganges to Nadia ;
(5) the river Mathabhanga, from the Ganges to its junction with the Hooghly ;
(6) such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagirathi, the Bhairab, the Jalangi and the Mathabhanga rivers, respectively.

1. Every vessel entering, or making use of, the Nadia Rivers shall be liable to measurement for the purpose of ascertaining the tolls payable. In case of any reasonable doubt, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel, notwithstanding that it was measured before.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes, as follows :—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats, barges and other square-built boats.

The tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V of 1864 and of these rules, be determined by the following measurements :—

Class I.—

(*a*) The product of one quarter the length of the vessel from stem to stern, measured outside and along the water-line, multiplied by the greatest interior breadth of the vessel, multiplied by the interior depth from the water-line to the bottom of the vessel, is to be taken as the number of maunds on which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches. The measurements of the breadth and depth are to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

(*c*) The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 25 maunds, rejecting any remainder of less than 25 maunds. In the case of vessels exceeding 1,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds, rejecting any remainder of less than 100 maunds.

Class II.-

(*d*) For vessels of Class II the number of maunds obtained by the system of measurement prescribed for Class I shall be increased by one-half. For vessels of this class exceeding 5,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds.

(*e*) In the case of steamers that have been surveyed under Act VI of 1884, the gross tonnage entered in the certificate shall be accepted as the tonnage of the steamer in lieu of measurement.

In all cases, the gross tonnage of steamers, whether as entered in the certificate, or as determined by measurement, shall be reduced by one-third as an allowance for engine-space.

(*f*) For vessels of Class II which are furnished with reliable way-bills or manifests, the gross maundage of cargo shown by the manifest may, at the option of the employer of the vessel, be taken as the maundage on which toll shall be charged : provided that the amount of tollage shall in no case be less than the amount which would be payable in respect of the tonnage of the vessel when empty. In the case of steamers that have been surveyed under Act VI of 1884, tolls shall be charged on the cargo, as thus determined, in addition to the tolls chargeable on the net tonnage of the steamer itself : provided that firms or individuals who wish to make use of this rule must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Measurements shall be made daily, as soon as possible, after a vessel arrives at the toll station. From the 1st April to the 30th September, measurements shall be made between the hours of 6 A.M. and 5 P.M., and tickets under Rule 5 shall be delivered between the hours of 7 A.M. and 6 P.M. From the 1st October to the 31st March, measurements shall be made between the hours of 7 A.M. and 4 P.M., and tickets under Rule 5 shall be delivered between the hours of 8 A.M. and 5 P.M.

EXISTING RULES.

The following Rules having reference to the undermentioned navigable channels, viz.:—

(1) the river Bhagirathi, throughout its whole course from the Ganges to Nadia, or to its junction with the Hooghly;
(2) the river Hooghly, from Nadia to its junction with the river Matabhanga;
(3) the river Jallanghi, from the Ganges to Nadia;
(4) the river Bhairab, from the Ganges to Nadia;
(5) the river Matabhanga, from the Ganges to its junction with the Hooghly;

have been passed this day by the Lieutenant-Governor of Bengal under the provisions of sections XI and XII of the "Canals Act, 1864" (No. V, B.L.C.), and will have effect from and after the 1st September 1879.

1. Except as may be herein provided, every vessel, before leaving any toll-station, shall pay tolls in accordance with Schedule A appended to these rules.

2. The tonnage of every vessel shall, for the purpose of the Canals Act, 1864, and of these rules, be determined by the following measurements:—

(*a*) The product of half the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depths from the water-line to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches; and the measurement of the breadth and depth in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c*) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 25 maunds is to be omitted; exceeding 25 and not exceeding 50 maunds is to be charged as 25 maunds only; exceeding 50 maunds and not exceeding 75 maunds is to be charged as 50 maunds only; and exceeding 75 maunds as 75 maunds only. Above 1,000 maunds no fraction of 100 maunds is to be charged.

(*d*) In the case of steamers, the tonnage as determined by clauses (*a*), (*b*) and (*c*) shall be reduced by one-half as an allowance for engine and cabin space.

(*e*) In the case of a steamer that has been surveyed under Act VI of 1884, the tonnage entered in the certificate shall be taken to be the tonnage of the steamer for the purpose of these rules, no further deduction being made for engine space.

19. Measurement shall be made between the hours of 6 A.M. and 6 P.M. from April 1st to September 30th, and between 7 A.M. and 5 P.M. from October 1st to March 31st. Tickets under Rule 12 shall be issued within the hours of 7 A.M. and 5 P.M. in summer and 8 A.M. and 5 P.M. in winter.

PROPOSED RULES.

4. Every cargo vessel, immediately after entering the toll station limits, shall proceed to the measuring ghât or to such other place as the Toll Collector may direct, and shall remain there until it has been measured in accordance with these rules. After measurement the vessel shall be removed from the measuring ghât without delay. In any case the person in charge of a vessel shall place it in such situation as he may be required to by the Toll Collector.

5. After measurement the measuring muharrir shall deliver to the person in charge of the vessel a pass in the form appended (Appendix E I) and shall inform such person verbally of the amount of toll payable by him. The person in charge of the vessel shall then take the pass to the Toll Collector's Office, and shall there pay the toll demanded. The Toll Collector shall then deliver to him a ticket in the form appended (Appendix E II), which shall bear the stamp of the Toll Collector's Office, and the signature of the Toll Collector, or in his absence, that of the Toll Daroga. The vessel shall then be entitled to proceed without further charge.

6. The person in charge of a vessel conveying passengers, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which are liable to be injured by detention, shall not be required to attend at the toll office, but shall pay toll to the measuring muharrir at the rate of six annas per oar, as provided in item I of the schedule of tolls hereto annexed; and the muharrir shall deliver to such person a ticket in the form appended (Appendix E III) which shall entitle the vessel to proceed without further charge.

7. (*a*) All tolls are payable on demand, and shall be paid as provided in Rules 5 and 6 before a vessel is allowed to proceed.

(*b*) Provided that vessels belonging to individuals or firms specially approved by the Superintending Engineer of the South-Western Circle, which approval may be withdrawn for any just cause, may be permitted to proceed without prepayment.

(*c*) The person in charge of a vessel approved as in clause (*b*) shall, on passing a toll station, stop and deliver at the station a form specifying such particulars regarding the vessel and its cargo as may be required by the Superintending Engineer, South-Western Circle.

8. The tickets mentioned in Rules 5 and 6 must be kept on board the vessel, and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in Rule 2, and shall demand payment of toll; and unless and until toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of Section IX of the Act.

9. If a vessel on which toll has been duly paid be unable, by reason of the shallowness of the water, or of any other natural obstacle, to pass along any one of the Nadia Rivers, she may be permitted to pass along any other of the rivers without extra charge, except as provided in Rule 13. If the vessel be unable to pass along any of the rivers, the Toll Collector may at his discretion, and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel.

10. The payment of toll at one toll station shall entitle a vessel to travel once along the whole length of the river on which that toll station is situated, whether or no the cargo is changed during the journey, except as provided in Rule 13.

11. A vessel containing passengers, or used for fishing, shall pay toll only once in the same day: provided that no passenger vessel shall be allowed this privilege unless returning empty, or conveying the same passengers as on the first trip. The "day" to be reckoned from midnight to midnight.

12. A cargo vessel, laden or empty, which has paid toll at a toll station, shall not be required to again pay toll if returning to the same toll station on the same day reckoned as in Rule 11, except as provided in Rule 13.

13. A vessel which has been measured and paid toll accordingly shall, in case additional cargo is taken on board, or a part or whole of the original cargo is changed for a cargo on which a higher rate of toll is leviable, be subject to re-measurement whether on the same or another day, reckoned as in Rule 11, and to the payment of the amount by which the total toll leviable on the re-measurement exceeds that originally paid.

14. Passenger boats having on board cargo other than what is necessary for the use of the passengers for the trip and which measure 25 maunds and upwards shall be dealt with as cargo boats.

15. (*a*) Boats having on board only articles which are necessary for the use of the crew for the trip shall be dealt with as empty.

(*b*) Empty jars, tins, casks, bags, or other receptacles used, or to be used only for the purpose of holding cargo, shall not be considered as cargo.

16. No cargo shall be taken out of any boat, whether measured or unmeasured, within toll station limits without the permission of the Toll Collector.

17. Tickets and passes issued in respect of any vessel, boat, raft, or float are not transferable to any other vessel, boat, raft, or float.

18. (*a*) Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls.

EXISTING RULES.

10. Immediately after entering the chowkey limits, the manjee of every cargo vessel shall take such vessel to the measuring ghât, and such vessel shall remain there until it shall have been measured in accordance with the rules for measurement.

11. After measurement shall have been duly effected, the measuring mohurir shall deliver to the manjee of the vessel a pass in the form annexed (Appendix E I), and shall inform the manjee verbally of the amount of toll payable by him.

12. The manjee shall take the pass to the Toll Collector's Office, and shall then pay the amount of the toll demanded from him. He shall then receive a ticket in the form annexed (Appendix E II) which shall entitle him to pass the chowkey limits free of all further charge. This ticket shall bear the stamp of the Toll Collector's Office and the signature of the Toll Collector, or in his absence that of the Toll Darogah.

13. The manjee or other person in charge of a vessel conveying passengers only, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which may be likely to be spoiled by detention, shall not be required to attend at the Toll Office, but may pay toll to the mohurir in charge of the chowkey boat at the rate of four annas for each oar of the vessel, and shall receive from the mohurir a ticket in the form annexed (Appendix E III) which shall entitle such vessel to pass chowkey limits without further charge.

6. If a vessel on which toll has been duly paid be unable, by reason of the shallowness of the water, or of any other natural obstacle, to prosecute her voyage up the river, she may, provided she returns to the toll station without unloading or taking in cargo, be permitted to pass along the other river (if any) without extra charge. If the vessel be unable to pass along either river, the Toll Collector may, at his discretion, and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel.

7. Every boat or vessel carrying passengers, or used for fishing, shall pay tolls only once in the same day: provided that no passenger vessel shall be allowed this privilege unless returning empty or conveying the same passengers as on the first trip. The word "day" in this and the following rule shall mean a day between sunrise and sunset, and shall not mean 24 hours.

8. An empty cargo vessel or boat leaving and returning empty to the station limits on the same day, having paid toll, shall not be required to pay toll a second time. A vessel leaving the chowkey limits laden, and paying toll accordingly, shall not be required to pay toll again if returning empty on the same day.

9. Boats or vessels which may have entered the Nadia Rivers unladen or partially laden, and paid toll accordingly, shall, if they receive on board any additional freight, be subject to re-measurement and to the payment of any additional amount of toll which may be leviable on account of the additional maundage.

14. Passenger boats having on board cargo other than what is necessary for the passengers for the trip, and which measure 25 maunds and upwards, shall be dealt with as cargo-boats.

15. Empty boats having on board articles which are only requisite for the subsistence of the crew for the trip shall be considered as empty.

16. No cargo shall be taken out of any boat, either measured or unmeasured, within the toll limits without the permission of the Toll Collector.

17. Tickets and passes are not transferable.

18. Passes collected at the chowkey boats shall be brought back into the Toll Office on the morning of the following day and counterfoiled.

PROPOSED RULES.

(b) In case the person in charge of a boat desires to have a duplicate of the ticket mentioned in Rule 5, in order to make over to the owner of the boat or cargo, or for any other legitimate purpose not constituting an evasion or breach of these rules, the Toll Collector shall issue a duplicate at the time the request is made, whether at the time of issue of the original ticket or subsequently.

19. Any vessel, raft float, or any number of vessels, rafts or floats fastened or connected together in any way, which, by reason of difficulty of proper control, or of excessive over-all length or breadth or depth, is of such a nature as, in the opinion of the Executive Engineer, Nadia Rivers Division, to be likely to cause unavoidable damage to the bandalling or other training or dredging works in the rivers, or to be likely to cause unavoidable obstruction to the traffic by grounding or sinking, is prohibited from passing into or along any of the channels comprised in the Nadia Rivers.

20. A vessel which has been detained under these rules or under Section IX of the Act may not be removed from the Nadia Rivers without the order of the Toll Collector until the toll due has been paid. During such detention the manji, owner or agent, must make arrangements for the safety of the vessel and cargo.

21. All vessels, whether the property of Government or of private owners, are liable for toll, except those exempted by the provisions of Bengal Government Notification No. 261, dated the 21st July 1890.

24. In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

25. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the Toll Offices, or other prominent places, calling on those concerned to pay to the Toll Collector all toll which may be due, as well as the expenses incurred on the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure prescribed in Section IX of the Act.

26. The purchaser of a vessel sold under the provisions of Section IX of the Act shall have the right to take it out of the channels comprising the Nadia Rivers on the day of purchase, or within such time as may be allowed by the Toll Collector, without payment of tolls.

27. When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay.

28. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in Rule 28 shall be effected by a notice exhibited in his office, and by advertisement in at least two local newspapers.

29. All vessels, whether travelling or moored, in the channels comprising the Nadia Rivers, shall, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. 20. Any person who may have lost or mislaid his measurement ticket may apply for a duplicate. Such application shall be in writing, and shall set forth clearly the circumstances of the loss, and shall be verified by the applicant. The Toll Collector, if he be satisfied that no fraud has been intended, shall supply a duplicate on receipt of a fee of eight annas in the case of a passenger boat or empty boat, and one rupee in the case of a laden boat.

22. No fleet of vessels or rafts lashed together and exceeding 150 feet in length, or carrying or floating timber exceeding in all twenty in number, shall pass into or through any of the Nuddea Rivers at one time or abreast.

23. No single vessel or raft carrying or floating a greater number than twelve timbers shall pass into, or out of, or through, any of the Nuddea Rivers. And no single vessel or raft carrying or floating more than six timbers shall pass into or through any of the aforesaid rivers between the 1st of December of any year and the 1st of July following.

5. All vessels which may be employed solely in conveying troops on military duty, or military stores, or which may be employed solely in work connected with the maintenance or improvement of the Nuddea Rivers, as well as boats used by Police Officers on actual duty, shall be exempted from paying tolls. This shall not be held to apply to Police Officers in transit from one district to another, unless for the purpose of making an arrest or for holding an investigation.

21. Any officer of Government or other person claiming exemption under Rule 5 shall be supplied by the measuring mohurir with a certificate in the form annexed (Appendix E IV), and shall fill up and return such form to the mohurir who shall thereupon grant a passenger ticket in form (E III). In case of doubt as to the good faith of any claim to exemption from toll, the measuring mohurir may detain the vessel for which exemption is claimed, and report the case for the orders of the Toll Collector.

26. The Commander of any vessel or vessels obtaining the privilege mentioned above shall leave at the toll station a certificate of having passed the toll station. The certificate shall mention the date of passing. It will be attached as a voucher to the bill, which will be presented for payment to the owners or agents of the vessel by the officer in Calcutta authorised to receive payment thereof.

No. 2831—42.

Extract (paragraphs 1 and 2) from the Proceedings of the Government of India in the Home Department (Public), under date Calcutta, the 8th December 1899.

RESOLUTION.

THE Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject, and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency Town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town, the Commissioner of Police) or Political Officer, as the case may be.

IRRIGATION DEPARTMENT.

The 4th September 1905.

No. 22.—Notification.—It is hereby notified for general information that the Hon'ble the Lieutenant-Governor of Bengal proposes, under the provisions of Sections XI and XII of Act V (B.C.) of 1864, to pass the following Rules in supersession of those now in force on the Nadia Rivers, with effect from the 15th November 1905 :—

W. A. INGLIS,
Secy. to the Govt. of Bengal.

PROPOSED RULES.

The rules shall apply to the undermentioned navigable channels, which are included under the designation "Nadia Rivers," viz.:—

(1) the river Bhagirathi, throughout its whole course from the Ganges to Nadia, or to its junction with the Hooghly ;
(2) the river Hooghly, from Nadia to its junction with the river Mathabhanga ;
(3) the river Jalangi, from the Ganges to Nadia ;
(4) the river Bhairab, from the Ganges to Nadia ;
(5) the river Mathabhanga, from the Ganges to its junction with the Hooghly ;
(6) such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagirathi, the Bhairab, the Jalangi and the Mathabhanga rivers, respectively.

1. Every vessel entering, or making use of, the Nadia Rivers shall be liable to measurement for the purpose of ascertaining the tolls payable. In case of any reasonable doubt, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel, notwithstanding that it was measured before.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes, as follows :—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats, barges and other square-built boats.

The tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V of 1864 and of these rules, be determined by the following measurements :—

Class I.—

(*a*) The product of one quarter the length of the vessel from stem to stern, measured outside and along the water-line, multiplied by the greatest interior breadth of the vessel, multiplied by the interior depth from the water-line to the bottom of the vessel, is to be taken as the number of maunds on which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches. The measurements of the breadth and depth are to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

(*c*) The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 25 maunds, rejecting any remainder of less than 25 maunds. In the case of vessels exceeding 1,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds, rejecting any remainder of less than 100 maunds.

Class II.-

(*d*) For vessels of Class II the number of maunds obtained by the system of measurement prescribed for Class I shall be increased by one-half. For vessels of this class exceeding 5,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds.

(*e*) In the case of steamers that have been surveyed under Act VI of 1884, the gross tonnage entered in the certificate shall be accepted as the tonnage of the steamer in lieu of measurement.

In all cases, the gross tonnage of steamers, whether as entered in the certificate, or as determined by measurement, shall be reduced by one-third as an allowance for engine-space.

(*f*) For vessels of Class II which are furnished with reliable way-bills or manifests, the gross maundage of cargo shown by the manifest may, at the option of the employer of the vessel, be taken as the maundage on which toll shall be charged : provided that the amount of tollage shall in no case be less than the amount which would be payable in respect of the tonnage of the vessel when empty. In the case of steamers that have been surveyed under Act VI of 1884, tolls shall be charged on the cargo, as thus determined, in addition to the tolls chargeable on the net tonnage of the steamer itself : provided that firms or individuals who wish to make use of this rule must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Measurements shall be made daily, as soon as possible, after a vessel arrives at the toll station. From the 1st April to the 30th September, measurements shall be made between the hours of 6 A.M. and 5 P.M., and tickets under Rule 5 shall be delivered between the hours of 7 A.M. and 6 P.M. From the 1st October to the 31st March, measurements shall be made between the hours of 7 A.M. and 4 P.M., and tickets under Rule 5 shall be delivered between the hours of 8 A.M. and 5 P.M.

EXISTING RULES.

The following Rules having reference to the undermentioned navigable channels, viz.:—

(1) the river Bhagirathi, throughout its whole course from the Ganges to Nadia, or to its junction with the Hooghly;
(2) the river Hooghly, from Nadia to its junction with the river Matabhanga;
(3) the river Jallanghi, from the Ganges to Nadia;
(4) the river Bhairab, from the Ganges to Nadia;
(5) the river Matabhanga, from the Ganges to its junction with the Hooghly;
(6) such portions of the river Ganges as may be within 5 miles of the entrance for the time being of the Bhagirathi, the Bhairab, the Jallanghi, and the Matabhanga rivers, respectively,

have been passed this day by the Lieutenant-Governor of Bengal under the provisions of sections XI and XII of the "Canals Act, 1864" (No. V, B.L.C.), and will have effect from and after the 1st September 1879.

1. Except as may be herein provided, every vessel, before leaving any toll-station, shall pay tolls in accordance with Schedule A appended to these rules.

2. The tonnage of every vessel shall, for the purpose of the Canals Act, 1864, and of these rules, be determined by the following measurements:—

(*a*) The product of half the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depths from the water-line to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches; and the measurement of the breadth and depth in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c*) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 25 maunds is to be omitted; exceeding 25 and not exceeding 50 maunds is to be charged as 25 maunds only; exceeding 50 maunds and not exceeding 75 maunds is to be charged as 50 maunds only; and exceeding 75 maunds as 75 maunds only. Above 1,000 maunds no fraction of 100 maunds is to be charged.

(*d*) In the case of steamers, the tonnage as determined by clauses (*a*), (*b*) and (*c*) shall be reduced by one-half as an allowance for engine and cabin space.

(*e*) In the case of a steamer that has been surveyed under Act VI of 1884, the tonnage entered in the certificate shall be taken to be the tonnage of the steamer for the purpose of these rules, no further deduction being made for engine space.

19. Measurement shall be made between the hours of 6 A.M. and 6 P.M. from April 1st to September 30th, and between 7 A.M. and 5 P.M. from October 1st to March 31st. Tickets under Rule 12 shall be issued within the hours of 7 A.M. and 5 P.M. in summer and 8 A.M. and 5 P.M. in winter.

Proposed Rules.

4. Every cargo vessel, immediately after entering the toll station limits, shall proceed to the measuring ghât or to such other place as the Toll Collector may direct, and shall remain there until it has been measured in accordance with these rules. After measurement the vessel shall be removed from the measuring ghât without delay. In any case the person in charge of a vessel shall place it in such situation as he may be required to by the Toll Collector.

5. After measurement the measuring muharrir shall deliver to the person in charge of the vessel a pass in the form appended (Appendix E I) and shall inform such person verbally of the amount of toll payable by him. The person in charge of the vessel shall then take the pass to the Toll Collector's Office, and shall there pay the toll demanded. The Toll Collector shall then deliver to him a ticket in the form appended (Appendix E II), which shall bear the stamp of the Toll Collector's Office, and the signature of the Toll Collector, or in his absence, that of the Toll Daroga. The vessel shall then be entitled to proceed without further charge.

6. The person in charge of a vessel conveying passengers, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which are liable to be injured by detention, shall not be required to attend at the toll office, but shall pay toll to the measuring muharrir at the rate of six annas per oar, as provided in item I of the schedule of tolls hereto annexed; and the muharrir shall deliver to such person a ticket in the form appended (Appendix E III) which shall entitle the vessel to proceed without further charge.

7. (*a*) All tolls are payable on demand, and shall be paid as provided in Rules 5 and 6 before a vessel is allowed to proceed.

(*b*) Provided that vessels belonging to individuals or firms specially approved by the Superintending Engineer of the South-Western Circle, which approval may be withdrawn for any just cause, may be permitted to proceed without prepayment.

(*c*) The person in charge of a vessel approved as in clause (*b*) shall, on passing a toll station, stop and deliver at the station a form specifying such particulars regarding the vessel and its cargo as may be required by the Superintending Engineer, South-Western Circle.

8. The tickets mentioned in Rules 5 and 6 must be kept on board the vessel, and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in Rule 2, and shall demand payment of toll; and unless and until toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of Section IX of the Act.

9. If a vessel on which toll has been duly paid be unable, by reason of the shallowness of the water, or of any other natural obstacle, to pass along any one of the Nadia Rivers, she may be permitted to pass along any other of the rivers without extra charge, except as provided in Rule 13. If the vessel be unable to pass along any of the rivers, the Toll Collector may at his discretion, and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel.

10. The payment of toll at one toll station shall entitle a vessel to travel once along the whole length of the river on which that toll station is situated, whether or no the cargo is changed during the journey, except as provided in Rule 13.

11. A vessel containing passengers, or used for fishing, shall pay toll only once in the same day: provided that no passenger vessel shall be allowed this privilege unless returning empty, or conveying the same passengers as on the first trip. The "day" to be reckoned from midnight to midnight.

12. A cargo vessel, laden or empty, which has paid toll at a toll station, shall not be required to again pay toll if returning to the same toll station on the same day reckoned as in Rule 11, except as provided in Rule 13.

13. A vessel which has been measured and paid toll accordingly shall, in case additional cargo is taken on board, or a part or whole of the original cargo is changed for a cargo on which a higher rate of toll is leviable, be subject to re-measurement whether on the same or another day, reckoned as in Rule 11, and to the payment of the amount by which the total toll leviable on the re-measurement exceeds that originally paid.

14. Passenger boats having on board cargo other than what is necessary for the use of the passengers for the trip and which measure 25 maunds and upwards shall be dealt with as cargo boats.

15. (*a*) Boats having on board only articles which are necessary for the use of the crew for the trip shall be dealt with as empty.

(*b*) Empty jars, tins, casks, bags, or other receptacles used, or to be used only for the purpose of holding cargo, shall not be considered as cargo.

16. No cargo shall be taken out of any boat, whether measured or unmeasured, within toll station limits without the permission of the Toll Collector.

17. Tickets and passes issued in respect of any vessel, boat, raft, or float are not transferable to any other vessel, boat, raft, or float.

18. (*a*) Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls.

EXISTING RULES.

10. Immediately after entering the chowkey limits, the manjee of every cargo vessel shall take such vessel to the measuring ghât, and such vessel shall remain there until it shall have been measured in accordance with the rules for measurement.

11. After measurement shall have been duly effected, the measuring mohurir shall deliver to the manjee of the vessel a pass in the form annexed (Appendix E I), and shall inform the manjee verbally of the amount of toll payable by him.

12. The manjee shall take the pass to the Toll Collector's Office, and shall then pay the amount of the toll demanded from him. He shall then receive a ticket in the form annexed (Appendix E II) which shall entitle him to pass the chowkey limits free of all further charge. This ticket shall bear the stamp of the Toll Collector's Office and the signature of the Toll Collector, or in his absence that of the Toll Darogah.

13. The manjee or other person in charge of a vessel conveying passengers only, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which may be likely to be spoiled by detention, shall not be required to attend at the Toll Office, but may pay toll to the mohurir in charge of the chowkey boat at the rate of four annas for each oar of the vessel, and shall receive from the mohurir a ticket in the form annexed (Appendix E III) which shall entitle such vessel to pass chowkey limits without further charge.

6. If a vessel on which toll has been duly paid be unable, by reason of the shallowness of the water, or of any other natural obstacle, to prosecute her voyage up the river, she may, provided she returns to the toll station without unloading or taking in cargo, be permitted to pass along the other river (if any) without extra charge. If the vessel be unable to pass along either river, the Toll Collector may, at his discretion, and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel.

7. Every boat or vessel carrying passengers, or used for fishing, shall pay tolls only once in the same day: provided that no passenger vessel shall be allowed this privilege unless returning empty or conveying the same passengers as on the first trip. The word "day" in this and the following rule shall mean a day between sunrise and sunset, and shall not mean 24 hours.

8. An empty cargo vessel or boat leaving and returning empty to the station limits on the same day, having paid toll, shall not be required to pay toll a second time. A vessel leaving the chowkey limits laden, and paying toll accordingly, shall not be required to pay toll again if returning empty on the same day

9. Boats or vessels which may have entered the Nadia Rivers unladen or partially laden, and paid toll accordingly, shall, if they receive on board any additional freight, be subject to re-measurement and to the payment of any additional amount of toll which may be leviable on account of the additional maundage.

14. Passenger boats having on board cargo other than what is necessary for the passengers for the trip, and which measure 25 maunds and upwards, shall be dealt with as cargo-boats.

15. Empty boats having on board articles which are only requisite for the subsistence of the crew for the trip shall be considered as empty.

16. No cargo shall be taken out of any boat, either measured or unmeasured, within the toll limits without the permission of the Toll Collector.

17. Tickets and passes are not transferable.

18. Passes collected at the chowkey boats shall be brought back into the Toll Office on the morning of the following day and counterfoiled.

PROPOSED RULES.

(*b*) In case the person in charge of a boat desires to have a duplicate of the ticket mentioned in Rule 5, in order to make over to the owner of the boat or cargo, or for any other legitimate purpose not constituting an evasion or breach of these rules, the Toll Collector shall issue a duplicate at the time the request is made, whether at the time of issue of the original ticket or subsequently.

19. Any vessel, raft float, or any number of vessels, rafts or floats fastened or connected together in any way, which, by reason of difficulty of proper control, or of excessive over-all length or breadth or depth, is of such a nature as, in the opinion of the Executive Engineer, Nadia Rivers Division, to be likely to cause unavoidable damage to the bandalling or other training or dredging works in the rivers, or to be likely to cause unavoidable obstruction to the traffic by grounding or sinking, is prohibited from passing into or along any of the channels comprised in the Nadia Rivers.

20. A vessel which has been detained under these rules or under Section IX of the Act may not be removed from the Nadia Rivers without the order of the Toll Collector until the toll due has been paid. During such detention the manji, owner or agent, must make arrangements for the safety of the vessel and cargo.

21. All vessels, whether the property of Government or of private owners, are liable for toll, except those exempted by the provisions of Bengal Government Notification No. 261, dated the 21st July 1890.

22. The Supervisor may by written notice, to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or luggees in any specified part of the channels comprising the Nadia Rivers or on the banks.

23. No person shall wilfully or negligently allow a vessel to sink in the channels comprising the Nadia Rivers without the permission of the Supervisor.

24. In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

25. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the Toll Offices, or other prominent places, calling on those concerned to pay to the Toll Collector all toll which may be due, as well as the expenses incurred on the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure prescribed in Section IX of the Act.

26. The purchaser of a vessel sold under the provisions of Section IX of the Act shall have the right to take it out of the channels comprising the Nadia Rivers on the day of purchase, or within such time as may be allowed by the Toll Collector, without payment of tolls.

27. When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay.

28. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in Rule 28 shall be effected by a notice exhibited in his office, and by advertisement in at least two local newspapers.

29. All vessels, whether travelling or moored, in the channels comprising the Nadia Rivers, shall, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the lights prescribed above.

EXISTING RULES.

20. Any person who may have lost or mislaid his measurement ticket may apply for a duplicate. Such application shall be in writing, and shall set forth clearly the circumstances of the loss, and shall be verified by the applicant. The Toll Collector, if he be satisfied that no fraud has been intended, shall supply a duplicate on receipt of a fee of eight annas in the case of a passenger boat or empty boat, and one rupee in the case of a laden boat.

22. No fleet of vessels or rafts lashed together and exceeding 150 feet in length, or carrying or floating timber exceeding in all twenty in number, shall pass into or through any of the Nuddea Rivers at one time or abreast.

23. No single vessel or raft carrying or floating a greater number than twelve timbers shall pass into, or out of, or through, any of the Nuddea Rivers. And no single vessel or raft carrying or floating more than six timbers shall pass into or through any of the aforesaid rivers between the 1st of December of any year and the 1st of July following.

5. All vessels which may be employed solely in conveying troops on military duty, or military stores, or which may be employed solely in work connected with the maintenance or improvement of the Nuddea Rivers, as well as boats used by Police Officers on actual duty, shall be exempted from paying tolls. This shall not be held to apply to Police Officers in transit from one district to another, unless for the purpose of making an arrest or for holding an investigation.

21. Any officer of Government or other person claiming exemption under Rule 5 shall be supplied by the measuring mohurir with a certificate in the form annexed (Appendix E IV), and shall fill up and return such form to the mohurir who shall thereupon grant a passenger ticket in form (E III). In case of doubt as to the good faith of any claim to exemption from toll, the measuring mohurir may detain the vessel for which exemption is claimed, and report the case for the orders of the Toll Collector.

25. Owners and agents of steamers who may desire to avoid the delay consequent on payment of toll on passing toll stations may give notice to the Board of Revenue of their desire and willingness to pay toll in Calcutta on demand and on depositing such amount as the Board of Revenue may determine they shall be furnished with a certificate which shall entitle the steamer or flat to pass any toll station without detention, the amount of toll due on account thereof being paid in Calcutta on demand, or deducted from the amount deposited with the Board of Revenue.

26. The Commander of any vessel or vessels obtaining the privilege mentioned above shall leave at the toll station a certificate of having passed the toll station. The certificate shall mention the date of passing. It will be attached as a voucher to the bill, which will be presented for payment to the owners or agents of the vessel by the officer in Calcutta authorised to receive payment thereof.

1. Every vessel entering, or making use of, the Nadia Rivers shall be liable to measurement for the purpose of ascertaining the tolls payable. In case of any reasonable doubt, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel, notwithstanding that it was measured before.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes, as follows :—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats, barges and other square-built boats.

The tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V of 1864 and of these rules, be determined by the following measurements :—

Class I.—

(*a*) The product of one quarter the length of the vessel from stem to stern, measured outside and along the water-line, multiplied by the greatest interior breadth of the vessel, multiplied by the interior depth from the water-line to the bottom of the vessel, is to be taken as the number of maunds on which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches. The measurements of the breadth and depth are to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

(*c*) The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 25 maunds, rejecting any remainder of less than 25 maunds. In the case of vessels exceeding 1,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds, rejecting any remainder of less than 100 maunds.

Class II.—

(*d*) For vessels of Class II the number of maunds obtained by the system of measurement prescribed for Class I shall be increased by one-half. For vessels of this class exceeding 5,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds.

(*e*) In the case of steamers that have been surveyed under Act VI of 1884, the gross tonnage entered in the certificate shall be accepted as the tonnage of the steamer in lieu of measurement.

In all cases, the gross tonnage of steamers, whether as entered in the certificate, or as determined by measurement, shall be reduced by one-third as an allowance for engine-space.

(*f*) For vessels of Class II which are furnished with reliable way-bills or manifests, the gross maundage of cargo shown by the manifest may, at the option of the employer of the vessel, be taken as the maundage on which toll shall be charged : provided that the amount of tollage shall in no case be less than the amount which would be payable in respect of the tonnage of the vessel when empty. In the case of steamers that have been surveyed under Act VI of 1884, tolls shall be charged on the cargo, as thus determined, in addition to the tolls chargeable on the net tonnage of the steamer itself : provided that firms or individuals who wish to make use of this rule must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Measurements shall be made daily, as soon as possible, after a vessel arrives at the toll station. From the 1st April to the 30th September, measurements shall be made between the hours of 6 A.M. and 5 P.M., and tickets under Rule 5 shall be delivered between the hours of 7 A.M. and 6 P.M. From the 1st October to the 31st March, measurements shall be made between the hours of 7 A.M. and 4 P.M., and tickets under Rule 5 shall be delivered between the hours of 8 A.M. and 5 P.M.

The 19th September 1905.

No. 93Marine.—In exercise of the powers conferred on him by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), and in supersession of the rules sanctioned under Notification No. 68Marine, dated the 27th June 1905, the Lieutenant-Governor is pleased, with the previous sanction of the Governor-General in Council, to make the following rules for regulating the grant to owners of motor vehicles of licenses to possess and transport petrol for use in such motor vehicles.

1. In these rules—

(*a*) "motor vehicle" includes all vehicles propelled by mechanical means on ordinary roads and motor boats and launches;

(*b*) "petrol" includes "other dangerous petroleum" used for the propulsion of motor vehicles.

2. (1) Licenses may be granted to the owners of motor vehicles—

(*a*) to possess petrol intended for use in motor vehicles;

(*b*) to transport petrol on motor vehicles for use in propelling such motor vehicles;

(*c*) to transport petrol by other means of conveyance by road, rail or water.

(2) Such licenses for quantities not exceeding 40 gallons may be granted, in the town and suburbs of Calcutta, by the Commissioner or Deputy Commissioner of Police, and elsewhere by the District Magistrate or such other officer as the Local Government may from time to time, by order in writing, appoint. Licenses for quantities exceeding 40 gallons will be granted by the Local Government.

(3) The licenses under rule 2 (1), clauses (*a*) and (*b*), shall be granted in the annexed Form H. and those under rule 2 (1), clause (*c*) in the annexed Form I.

3. The licenses under clauses (*a*) and (*b*) of rule 2 (1) shall be granted free of charge, and those under clause (*c*) of that rule for a fee of Rs. 5. The licenses shall remain in force for a period of one year, at the expiry of which they shall expire, but may be renewed.

4. Every license shall be subject to the following conditions, namely:—

(1) When not carried in a receptacle forming part of a motor vehicle the petrol shall not be kept, used or transported except in iron or steel vessels so substantially constructed as not to be liable, save by gross negligence or extraordinary accident, to be broken or become defective or insecure.

Every such vessel shall be so constructed and maintained that no leakage, whether of liquid or vapour, can take place therefrom.

(2) Every such vessel, when used for transporting or keeping petrol, shall have attached thereto a metallic or enamelled label in conspicuous characters, stating the description of the petrol with the addition of the words "highly inflammable" legibly and indelibly stamped or marked thereon, and with the addition of the name and address of the owner.

(3) Every such vessel shall have an air-space equal to one-tenth of its capacity to allow for expansion of the petrol.

(4) No such vessel shall contain more than four gallons.

(5) Before repairs are done to any such vessel, it shall, as far as practicable, be cleaned by the removal of all petrol and of all dangerous vapours derived from the same.

(6) The store-house or building in which the petrol is stored shall be well ventilated and constructed of uninflammable materials. But any building having a capacity of not more than 40 gallons owned by the owner of a motor vehicle or a petty dealer may have its doors and windows constructed of wood.

(7) Where a store-house forms part of, or is attached to, another building, and the intervening floor or partition is of an unsubstantial or inflammable character, or has an opening therein, the whole of such building shall be deemed to be the store house, and no portion of such store-house shall be used as a dwelling or as a place where persons assemble.

A store-house shall have a separate entrance from the open air distinct from that of any dwelling or building in which persons assemble.

(8) The amount of petrol which may be kept by the owner of a motor vehicle, whether or not upon motor vehicles, shall not exceed 60 gallons at any one time.

(9) The amount of petrol which may be transported under a license granted under rule 2 (1), clause (c), shall not exceed 60 gallons.

(10) The filling or replenishing of any vessel with petrol shall not be carried on, nor shall the contents of any such vessel be exposed, in the presence of fire or artificial light, except a light of such construction, position and character as not to be liable to ignite any inflammable vapour arising from the petrol, and no fire or artificial light capable of igniting inflammable vapour shall be brought within dangerous proximity of the place where any vessel containing petrol is being kept.

(11) In the case of all petrol kept or transported for the purpose of, or in connection with, any motor vehicle—

(a) all due precautions shall be taken for the prevention of accidents by fire or explosion, and for the prevention of unauthorised persons from having access to any petrol kept or transported, and to the vessels containing, or intended to contain, or having actually contained the same; and

(b) every person managing or employed on, or in connection with, any motor vehicle shall abstain from every act whatever which tends to cause fire or explosion, and which is not reasonably necessary, and shall prevent any other person from committing any such act.

(12) The store-house shall be liable to inspection by any police officer not lower in rank than Inspector of Police, or by any other officer whom the Local Government may depute for that purpose.

5. The general rules for the possession and transport of dangerous petroleum in force in the province of Bengal for the time being shall, except so far as they are inconsistent with the foregoing rules, apply to petrol kept or transported for use in motor vehicles.

To HIS HONOUR SIR ANDREW HENDERSON LEITH FRASER, K.C.S.I., *Lieutenant-Governor of Bengal.*

The application of Maharaja Bahadur SIR JOTINDRA MOHUN TAGORE, K.C.S.I., under Section 3 of the Bengal Settled Estates Act, 1904.

SHEWETH:

1. That the applicant, the son of the late Hero Coomar Tagore, is the representative of the elder branch of the Tagore family of Calcutta, was born in the year 1831. He is one of the largest Zemindars in Bengal. In January 1870 he was appointed a Member of the Bengal Legislative Council and on the expiry of his term of office he was appointed a second time. The title of Raja Bahadur was conferred upon him on the 17th March 1871 and on the 1st January 1877 he received the title of Maharaja, and on the 1st February following he was appointed a Member of the Legislative Council of the Governor-General of India. In the year 1879 the applicant was appointed a second time and in 1881 a third time as a Member of the Legislative Council of the Governor-General. In 1880 he was created a Companion of the Most Exalted Order of the Star of India and on the 24th May 1882 a Knight Commander of the same Order. In the year 1882 the applicant was elected President of the Faculty of Arts of the Calcutta University and was appointed to be a Member of the Education Commission and of the Jury Commission. On the 1st January 1880 the title of Maharaja Bahadur was conferred on the applicant as a personal distinction and on the 1st January 1891 by Foreign Department Notification of that date the title of Maharaja which had been conferred upon him in the year 1877 as a personal distinction was declared to be hereditary.

2. 3. The reasons for such application are that the applicant is desirous of ensuring that the dignity of the hereditary title and the position of the Tagore family of which the applicant is the head shall be maintained by successive Maharajas and with such object that the properties referred to in the last preceding paragraph hereof shall be set apart from the estate of the applicant and brought into settlement to follow the devolution of the hereditary title to guard by the settlement of such properties against waste and extravagance in the future and the degrading and disastrous consequences thereof and to afford and secure to successive life tenants a certain and sufficient income to enable them to maintain or to assist them in maintaining the dignity and position aforesaid.

The properties mentioned and described in the first part of the first schedule hereto are situated in the several Districts of Rangpur, Dinajpur, Bogra, Hooghly, Burdwan, Murshidabad, Birbhum, Midnapore, Nadia, Darbhanga, 24-Parganas, Jessore, Purnea, Muzaffarpur, Faridpur, Arrah and Bhagalpur. The respective undivided shares are separate in management and the *juma wasil* of the share held by the applicant is entirely distinct from the *juma wasil* of the share held by the said Kumars of Dighapatia, the revenue payable to Government being definitely apportioned to the respective shares under separate accounts. The applicant being in fact solely entitled to the said eight annas share held by him and being in possession thereof and entitled thereto for a permanent, heritable and transferable right, interest and estate therein is desirous that such share should be included in the proposed settlement as a property to which he is solely entitled.

6. The moveable properties which the applicant is desirous of including in the settlement consist of jewellery, books and manuscripts mentioned or described in the second and third schedules hereto. Such moveable properties are in the possession of, and are the absolute property of, the applicant, who proposes to include them in the settlement in order that they may be treated as heirlooms.

7. The income yielded annually by the severel immoveable properties situate in the several districts mentioned and described in the first part of the first schedule and the revenue rates and taxes payable to the Government annually in respect thereof are shown in that part of such schedule.

Rent-free	2 to 4 annas.	4 to 8 annas.	8 to 1 rupee.	Re. 1 to 1-8

After the 8th year the rent will be Re. 1-8 to 2. Government reserves to itself the right to charge a special rate of rent for special land, viz., for land which may be cleared and on which crops have been grown, and also for land on which buildings may be erected for residential quarters.

37. A copy of the rules 4 to 22 will be given to every settler and will be hung up in the estate cutcherry. No. 22.—Notification.—It is hereby notified for general information that the Hon'ble the Lieutenant-Governor of Bengal proposes, under the provisions of Sections XI and XII of Act V (B.C.) of 1864, to pass the following Rules in supersession of those now in force on the Nadia Rivers, with effect from the 15th November 1905 :—

W. A. INGLIS,
Secy. to the Govt. of Bengal.

PROPOSED RULES.

The rules shall apply to the undermentioned navigable channels, which are included under the designation "Nadia Rivers," viz.:—

(1) the river Bhagirathi, throughout its whole course from the Ganges to Nadia, or to its junction with the Hooghly ;
(2) the river Hooghly, from Nadia to its junction with the river Mathabhanga ;
(3) the river Jalangi, from the Ganges to Nadia ;
(4) the river Bhairab, from the Ganges to Nadia ;
(5) the river Mathabhanga, from the Ganges to its junction with the Hooghly ;
(6) such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagirathi, the Bhairab, the Jalangi and the Mathabhanga rivers, respectively.

1. Every vessel entering, or making use of, the Nadia Rivers shall be liable to measurement for the purpose of ascertaining the tolls payable. In case of any reasonable doubt, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel, notwithstanding that it was measured before.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes, as follows :—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats, barges and other square-built boats.

The tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V of 1864 and of these rules, be determined by the following measurements :—

Class I.—

(*a*) The product of one quarter the length of the vessel from stem to stern, measured outside and along the water-line, multiplied by the greatest interior breadth of the vessel, multiplied by the interior depth from the water-line to the bottom of the vessel, is to be taken as the number of maunds on which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches. The measurements of the breadth and depth are to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

(*c*) The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 25 maunds, rejecting any remainder of less than 25 maunds. In the case of vessels exceeding 1,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds, rejecting any remainder of less than 100 maunds.

Class II.—

(*d*) For vessels of Class II the number of maunds obtained by the system of measurement prescribed for Class I shall be increased by one-half. For vessels of this class exceeding 5,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds.

(*e*) In the case of steamers that have been surveyed under Act VI of 1884, the gross tonnage entered in the certificate shall be accepted as the tonnage of the steamer in lieu of measurement.

In all cases, the gross tonnage of steamers, whether as entered in the certificate, or as determined by measurement, shall be reduced by one-third as an allowance for engine-space.

(*f*) For vessels of Class II which are furnished with reliable way-bills or manifests, the gross maundage of cargo shown by the manifest may, at the option of the employer of the vessel, be taken as the maundage on which toll shall be charged : provided that the amount of tollage shall in no case be less than the amount which would be payable in respect of the tonnage of the vessel when empty. In the case of steamers that have been surveyed under Act VI of 1884, tolls shall be charged on the cargo, as thus determined, in addition to the tolls chargeable on the net tonnage of the steamer itself : provided that firms or individuals who wish to make use of this rule must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Measurements shall be made daily, as soon as possible, after a vessel arrives at the toll station. From the 1st April to the 30th September, measurements shall be made between the hours of 6 A.M. and 5 P.M., and tickets under Rule 5 shall be delivered between the hours of 7 A.M. and 6 P.M. From the 1st October to the 31st March, measurements shall be made between the hours of 7 A.M. and 4 P.M., and tickets under Rule 5 shall be delivered between the hours of 8 A.M. and 5 P.M.

(6) such portions of the river Ganges as may be within 5 miles of the entrance for the time being of the Bhagirathi, the Bhairab, the Jallanghi, and the Matabhanga rivers, respectively,

have been passed this day by the Lieutenant-Governor of Bengal under the provisions of sections XI and XII of the "Canals Act, 1864" (No. V, B.L.C.), and will have effect from and after the 1st September 1879.

1. Except as may be herein provided, every vessel, before leaving any toll-station, shall pay tolls in accordance with Schedule A appended to these rules.

2. The tonnage of every vessel shall, for the purpose of the Canals Act, 1864, and of these rules, be determined by the following measurements :—

(a) The product of half the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depths from the water-line to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.
(b) The measurement of the length is to be made in feet, rejecting inches; and the measurement of the breadth and depth in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.
(c) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 25 maunds is to be omitted; exceeding 25 and not exceeding 50 maunds is to be charged as 25 maunds only; exceeding 50 maunds and not exceeding 75 maunds is to be charged as 50 maunds only; and exceeding 75 maunds as 75 maunds only. Above 1,000 maunds no fraction of 100 maunds is to be charged.
(d) In the case of steamers, the tonnage as determined by clauses (a), (b) and (c) shall be reduced by one-half as an allowance for engine and cabin space.
(e) In the case of a steamer that has been surveyed under Act VI of 1884, the tonnage entered in the certificate shall be taken to be the tonnage of the steamer for the purpose of these rules, no further deduction being made for engine space.

19. Measurement shall be made between the hours of 6 A.M. and 6 P.M. from April 1st to September 30th, and between 7 A.M. and 5 P.M. from October 1st to March 31st. Tickets under Rule 12 shall be issued within the hours of 7 A.M. and 5 P.M. in summer and 8 A.M. and 5 P.M. in winter.

PROPOSED RULES.

4. Every cargo vessel, immediately after entering the toll station limits, shall proceed to the measuring ghât or to such other place as the Toll Collector may direct, and shall remain there until it has been measured in accordance with these rules. After measurement the vessel shall be removed from the measuring ghât without delay. In any case the person in charge of a vessel shall place it in such situation as he may be required to by the Toll Collector.

5. After measurement the measuring muharrir shall deliver to the person in charge of the vessel a pass in the form appended (Appendix E I) and shall inform such person verbally of the amount of toll payable by him. The person in charge of the vessel shall then take the pass to the Toll Collector's Office, and shall there pay the toll demanded. The Toll Collector shall then deliver to him a ticket in the form appended (Appendix E II), which shall bear the stamp of the Toll Collector's Office, and the signature of the Toll Collector, or in his absence, that of the Toll Daroga. The vessel shall then be entitled to proceed without further charge.

6. The person in charge of a vessel conveying passengers, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which are liable to be injured by detention, shall not be required to attend at the toll office, but shall pay toll to the measuring muharrir at the rate of six annas per oar, as provided in item I of the schedule of tolls hereto annexed; and the muharrir shall deliver to such person a ticket in the form appended (Appendix E III) which shall entitle the vessel to proceed without further charge.

7. (*a*) All tolls are payable on demand, and shall be paid as provided in Rules 5 and 6 before a vessel is allowed to proceed.

(*b*) Provided that vessels belonging to individuals or firms specially approved by the Superintending Engineer of the South-Western Circle, which approval may be withdrawn for any just cause, may be permitted to proceed without prepayment.

(*c*) The person in charge of a vessel approved as in clause (*b*) shall, on passing a toll station, stop and deliver at the station a form specifying such particulars regarding the vessel and its cargo as may be required by the Superintending Engineer, South-Western Circle.

8. The tickets mentioned in Rules 5 and 6 must be kept on board the vessel, and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in Rule 2, and shall demand payment of toll; and unless and until toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of Section IX of the Act.

9. If a vessel on which toll has been duly paid be unable, by reason of the shallowness of the water, or of any other natural obstacle, to pass along any one of the Nadia Rivers, she may be permitted to pass along any other of the rivers without extra charge, except as provided in Rule 13. If the vessel be unable to pass along any of the rivers, the Toll Collector may at his discretion, and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel.

10. The payment of toll at one toll station shall entitle a vessel to travel once along the whole length of the river on which that toll station is situated, whether or no the cargo is changed during the journey, except as provided in Rule 13.

11. A vessel containing passengers, or used for fishing, shall pay toll only once in the same day: provided that no passenger vessel shall be allowed this privilege unless returning empty, or conveying the same passengers as on the first trip. The "day" to be reckoned from midnight to midnight.

12. A cargo vessel, laden or empty, which has paid toll at a toll station, shall not be required to again pay toll if returning to the same toll station on the same day reckoned as in Rule 11, except as provided in Rule 13.

13. A vessel which has been measured and paid toll accordingly shall, in case additional cargo is taken on board, or a part or whole of the original cargo is changed for cargo on which a higher rate of toll is leviable, be subject to re-measurement whether on the same or another day, reckoned as in Rule 11, and to the payment of the amount by which the total toll leviable on the re-measurement exceeds that originally paid.

14. Passenger boats having on board cargo other than what is necessary for the use of the passengers for the trip and which measure 25 maunds and upwards shall be dealt with as cargo boats.

15. (*a*) Boats having on board only articles which are necessary for the use of the crew for the trip shall be dealt with as empty.

(*b*) Empty jars, tins, casks, bags, or other receptacles used, or to be used only for the purpose of holding cargo, shall not be considered as cargo.

16. No cargo shall be taken out of any boat, whether measured or unmeasured, within toll station limits without the permission of the Toll Collector.

17. Tickets and passes issued in respect of any vessel, boat, raft, or float are not transferable to any other vessel, boat, raft, or float.

18. (*a*) Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls.

EXISTING RULES.

10. Immediately after entering the chowkey limits, the manjee of every cargo vessel shall take such vessel to the measuring ghât, and such vessel shall remain there until it shall have been measured in accordance with the rules for measurement.

11. After measurement shall have been duly effected, the measuring mohurir shall deliver to the manjee of the vessel a pass in the form annexed (Appendix E I), and shall inform the manjee verbally of the amount of toll payable by him.

12. The manjee shall take the pass to the Toll Collector's Office, and shall then pay the amount of the toll demanded from him. He shall then receive a ticket in the form annexed (Appendix E II) which shall entitle him to pass the chowkey limits free of all further charge. This ticket shall bear the stamp of the Toll Collector's Office and the signature of the Toll Collector, or in his absence that of the Toll Darogah.

13. The manjee or other person in charge of a vessel conveying passengers only, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which may be likely to be spoiled by detention, shall not be required to attend at the Toll Office, but may pay toll to the mohurir in charge of the chowkey boat at the rate of four annas for each oar of the vessel, and shall receive from the mohurir a ticket in the form annexed (Appendix E III) which shall entitle such vessel to pass chowkey limits without further charge.

6. If a vessel on which toll has been duly paid be unable, by reason of the shallowness of the water, or of any other natural obstacle, to prosecute her voyage up the river, she may, provided she returns to the toll station without unloading or taking in cargo, be permitted to pass along the other river (if any) without extra charge. If the vessel be unable to pass along either river, the Toll Collector may, at his discretion, and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel.

7. Every boat or vessel carrying passengers, or used for fishing, shall pay tolls only once in the same day: provided that no passenger vessel shall be allowed this privilege unless returning empty or conveying the same passengers as on the first trip. The word "day" in this and the following rule shall mean a day between sunrise and sunset, and shall not mean 24 hours.

8. An empty cargo vessel or boat leaving and returning empty to the station limits on the same day, having paid toll, shall not be required to pay toll a second time. A vessel leaving the chowkey limits laden, and paying toll accordingly, shall not be required to pay toll again if returning empty on the same day

9. Boats or vessels which may have entered the Nadia Rivers unladen or partially laden, and paid toll accordingly, shall, if they receive on board any additional freight, be subject to re-measurement and to the payment of any additional amount of toll which may be leviable on account of the additional maundage.

14. Passenger boats having on board cargo other than what is necessary for the passengers for the trip, and which measure 25 maunds and upwards, shall be dealt with as cargo-boats.

15. Empty boats having on board articles which are only requisite for the subsistence of the crew for the trip shall be considered as empty.

16. No cargo shall be taken out of any boat, either measured or unmeasured, within the toll limits without the permission of the Toll Collector.

17. Tickets and passes are not transferable.

18. Passes collected at the chowkey boats shall be brought back into the Toll Office on the morning of the following day and counterfoiled.

PROPOSED RULES.

(b) In case the person in charge of a boat desires to have a duplicate of the ticket mentioned in Rule 5, in order to make over to the owner of the boat or cargo, or for any other legitimate purpose not constituting an evasion or breach of these rules, the Toll Collector shall issue a duplicate at the time the request is made, whether at the time of issue of the original ticket or subsequently.

19. Any vessel, raft float, or any number of vessels, rafts or floats fastened or connected together in any way, which, by reason of difficulty of proper control, or of excessive over-all length or breadth or depth, is of such a nature as, in the opinion of the Executive Engineer, Nadia Rivers Division, to be likely to cause unavoidable damage to the bandalling or other training or dredging works in the rivers, or to be likely to cause unavoidable obstruction to the traffic by grounding or sinking, is prohibited from passing into or along any of the channels comprised in the Nadia Rivers.

20. A vessel which has been detained under these rules or under Section IX of the Act may not be removed from the Nadia Rivers without the order of the Toll Collector until the toll due has been paid. During such detention the manji, owner or agent, must make arrangements for the safety of the vessel and cargo.

21. All vessels, whether the property of Government or of private owners, are liable for toll, except those exempted by the provisions of Bengal Government Notification No. 261, dated the 21st July 1890.

22. The Supervisor may by written notice, to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or luggees in any specified part of the channels comprising the Nadia Rivers or on the banks.

23. No person shall wilfully or negligently allow a vessel to sink in the channels comprising the Nadia Rivers without the permission of the Supervisor.

24. In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

25. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the Toll Offices, or other prominent places, calling on those concerned to pay to the Toll Collector all toll which may be due, as well as the expenses incurred on the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure prescribed in Section IX of the Act.

26. The purchaser of a vessel sold under the provisions of Section IX of the Act shall have the right to take it out of the channels comprising the Nadia Rivers on the day of purchase, or within such time as may be allowed by the Toll Collector, without payment of tolls.

27. When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay.

28. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in Rule 27 shall be effected by a notice exhibited in his office, and by advertisement in at least two local newspapers.

29. All vessels, whether travelling or moored, in the channels comprising the Nadia Rivers, shall, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the lights prescribed above.

EXISTING RULES.

20. Any person who may have lost or mislaid his measurement ticket may apply for a duplicate. Such application shall be in writing, and shall set forth clearly the circumstances of the loss, and shall be verified by the applicant. The Toll Collector, if he be satisfied that no fraud has been intended, shall supply a duplicate on receipt of a fee of eight annas in the case of a passenger boat or empty boat, and one rupee in the case of a laden boat.

22. No fleet of vessels or rafts lashed together and exceeding 150 feet in length, or carrying or floating timber exceeding in all twenty in number, shall pass into or through any of the Nuddea Rivers at one time or abreast.

23. No single vessel or raft carrying or floating a greater number than twelve timbers shall pass into, or out of, or through, any of the Nuddea Rivers. And no single vessel or raft carrying or floating more than six timbers shall pass into or through any of the aforesaid rivers between the 1st of December of any year and the 1st of July following.

5. All vessels which may be employed solely in conveying troops on military duty, or military stores, or which may be employed solely in work connected with the maintenance or improvement of the Nuddea Rivers, as well as boats used by Police Officers on actual duty, shall be exempted from paying tolls. This shall not be held to apply to Police Officers in transit from one district to another, unless for the purpose of making an arrest or for holding an investigation.

21. Any officer of Government or other person claiming exemption under Rule 5 shall be supplied by the measuring mohurir with a certificate in the form annexed (Appendix E IV), and shall fill up and return such form to the mohurir who shall thereupon grant a passenger ticket in form (E III). In case of doubt as to the good faith of any claim to exemption from toll, the measuring mohurir may detain the vessel for which exemption is claimed, and report the case for the orders of the Toll Collector.

25. Owners and agents of steamers who may desire to avoid the delay consequent on payment of toll on passing toll stations may give notice to the Board of Revenue of their desire and willingness to pay toll in Calcutta on demand and on depositing such amount as the Board of Revenue may determine they shall be furnished with a certificate which shall entitle the steamer or flat to pass any toll station without detention, the amount of toll due, on account thereof being paid in Calcutta on demand, or deducted from the amount deposited with the Board of Revenue.

26. The Commander of any vessel or vessels obtaining the privilege mentioned above shall leave at the toll station a certificate of having passed the toll station. The certificate shall mention the date of passing. It will be attached as a voucher to the bill, which will be presented for payment to the owners or agents of the vessel by the officer in Calcutta authorised to receive payment thereof.

The 21st September 1905.

No. 94Marine.—It is hereby notified that under section 9 of the Chittagong Port Commissioners Act, 1887, Mr. J. Stuart, Traffic Manager, Assam-Bengal Railway, is appointed to be a Commissioner of the Port of Chittagong, in the place of Mr. W. Chadwick, resigned.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

The 19th September 1905.

No. 93Marine.—In exercise of the powers conferred on him by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), and in supersession of the rules sanctioned under Notification No. 68Marine, dated the 27th June 1905, the Lieutenant-Governor is pleased, with the previous sanction of the Governor-General in Council, to make the following rules for regulating the grant to owners of motor vehicles of licenses to possess and transport petrol for use in such motor vehicles.

1. In these rules—

(*a*) "motor vehicle" includes all vehicles propelled by mechanical means on ordinary roads and motor boats and launches;

(*b*) "petrol" includes "other dangerous petroleum" used for the propulsion of motor vehicles.

2. (1) Licenses may be granted to the owners of motor vehicles—

(*a*) to possess petrol intended for use in motor vehicles;

(*b*) to transport petrol on motor vehicles for use in propelling such motor vehicles;

(*c*) to transport petrol by other means of conveyance by road, rail or water.

(2) Such licenses for quantities not exceeding 40 gallons may be granted, in the town and suburbs of Calcutta, by the Commissioner or Deputy Commissioner of Police, and elsewhere by the District Magistrate or such other officer as the Local Government may from time to time, by order in writing, appoint. Licenses for quantities exceeding 40 gallons will be granted by the Local Government.

(3) The licenses under rule 2 (1), clauses (*a*) and (*b*), shall be granted in the annexed Form H, and those under rule 2 (1), clause (*c*) in the annexed Form I.

3. The licenses under clauses (*a*) and (*b*) of rule 2 (1) shall be granted free of charge, and those under clause (*c*) of that rule for a fee of Rs. 5. The licenses shall remain in force for a period of one year, at the expiry of which they shall expire, but may be renewed.

4. Every license shall be subject to the following conditions, namely:—

(1) When not carried in a receptacle forming part of a motor vehicle the petrol shall not be kept, used or transported except in iron or steel vessels so substantially constructed as not to be liable, save by gross negligence or extraordinary accident, to be broken or become defective or insecure.

Every such vessel shall be so constructed and maintained that no leakage, whether of liquid or vapour, can take place therefrom.

(2) Every such vessel, when used for transporting or keeping petrol, shall have attached thereto a metallic or enamelled label in conspicuous characters, stating the description of the petrol with the addition of the words "highly inflammable" legibly and indelibly stamped or marked thereon, and with the addition of the name and address of the owner.

(3) Every such vessel shall have an air-space equal to one-tenth of its capacity to allow for expansion of the petrol.

(4) No such vessel shall contain more than four gallons.

(5) Before repairs are done to any such vessel, it shall, as far as practicable, be cleaned by the removal of all petrol and of all dangerous vapours derived from the same.

(6) The store-house or building in which the petrol is stored shall be well ventilated and constructed of uninflammable materials. But any building having a capacity of not more than 40 gallons owned by the owner of a motor vehicle or a petty dealer may have its doors and windows constructed of wood.

(7) Where a store-house forms part of, or is attached to, another building, and the intervening floor or partition is of an unsubstantial or inflammable character, or has an opening therein, the whole of such building shall be deemed to be the store-house, and no portion of such store-house shall be used as a dwelling or as a place where persons assemble.

A store-house shall have a separate entrance from the open air distinct from that of any dwelling or building in which persons assemble.

(8) The amount of petrol which may be kept by the owner of a motor vehicle, whether or not upon motor vehicles, shall not exceed 60 gallons at any one time.

(9) The amount of petrol which may be transported under a license granted under rule 2 (1), clause (c), shall not exceed 60 gallons.

(10) The filling or replenishing of any vessel with petrol shall not be carried on, nor shall the contents of any such vessel be exposed, in the presence of fire or artificial light, except a light of such construction, position and character as not to be liable to ignite any inflammable vapour arising from the petrol, and no fire or artificial light capable of igniting inflammable vapour shall be brought within dangerous proximity of the place where any vessel containing petrol is being kept.

(11) In the case of all petrol kept or transported for the purpose of, or in connection with, any motor vehicle—

(a) all due precautions shall be taken for the prevention of accidents by fire or explosion, and for the prevention of unauthorised persons from having access to any petrol kept or transported, and to the vessels containing, or intended to contain, or having actually contained the same; and

(b) every person managing or employed on, or in connection with, any motor vehicle shall abstain from every act whatever which tends to cause fire or explosion, and which is not reasonably necessary, and shall prevent any other person from committing any such act.

(12) The store-house shall be liable to inspection by any police officer not lower in rank than Inspector of Police, or by any other officer whom the Local Government may depute for that purpose.

5. The general rules for the possession and transport of dangerous petroleum in force in the province of Bengal for the time being shall, except so far as they are inconsistent with the foregoing rules, apply to petrol kept or transported for use in motor vehicles.

IRRIGATION DEPARTMENT.

The 4th September 1905.

No. 22.—Notification.—It is hereby notified for general information that the Hon'ble the Lieutenant-Governor of Bengal proposes, under the provisions of Sections XI and XII of Act V (B.C.) of 1864, to pass the following Rules in supersession of those now in force on the Nadia Rivers, with effect from the 15th November 1905:—

W. A. INGLIS,
Secy. to the Govt. of Bengal.

PROPOSED RULES.

The rules shall apply to the undermentioned navigable channels, which are included under the designation "Nadia Rivers," viz.:—

(1) the river Bhagirathi, throughout its whole course from the Ganges to Nadia, or to its junction with the Hooghly;
(2) the river Hooghly, from Nadia to its junction with the river Mathabhanga;
(3) the river Jalangi, from the Ganges to Nadia;
(4) the river Bhairab, from the Ganges to Nadia;
(5) the river Mathabhanga, from the Ganges to its junction with the Hooghly;
(6) such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagirathi, the Bhairab, the Jalangi and the Mathabhanga rivers, respectively.

1. Every vessel entering, or making use of, the Nadia Rivers shall be liable to measurement for the purpose of ascertaining the tolls payable. In case of any reasonable doubt, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel, notwithstanding that it was measured before.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes, as follows:—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats, barges and other square-built boats.

The tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V of 1864 and of these rules, be determined by the following measurements:—

Class I.—

(*a*) The product of one quarter the length of the vessel from stem to stern, measured outside and along the water-line, multiplied by the greatest interior breadth of the vessel, multiplied by the interior depth from the water-line to the bottom of the vessel, is to be taken as the number of maunds on which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches. The measurements of the breadth and depth are to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

(*c*) The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 25 maunds, rejecting any remainder of less than 25 maunds. In the case of vessels exceeding 1,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds, rejecting any remainder of less than 100 maunds.

Class II.—

(*d*) For vessels of Class II the number of maunds obtained by the system of measurement prescribed for Class I shall be increased by one-half. For vessels of this class exceeding 5,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds.

(*e*) In the case of steamers that have been surveyed under Act VI of 1884, the gross tonnage entered in the certificate shall be accepted as the tonnage of the steamer in lieu of measurement.

In all cases, the gross tonnage of steamers, whether as entered in the certificate, or as determined by measurement, shall be reduced by one-third as an allowance for engine-space.

(*f*) For vessels of Class II which are furnished with reliable way-bills or manifests, the gross maundage of cargo shown by the manifest may, at the option of the employer of the vessel, be taken as the maundage on which toll shall be charged: provided that the amount of tollage shall in no case be less than the amount which would be payable in respect of the tonnage of the vessel when empty. In the case of steamers that have been surveyed under Act VI of 1884, tolls shall be charged on the cargo, as thus determined, in addition to the tolls chargeable on the net tonnage of the steamer itself: provided that firms or individuals who wish to make use of this rule must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Measurements shall be made daily, as soon as possible, after a vessel arrives at the toll station. From the 1st April to the 30th September, measurements shall be made between the hours of 6 A.M. and 5 P.M., and tickets under Rule 5 shall be delivered between the hours of 7 A.M. and 6 P.M. From the 1st October to the 31st March, measurements shall be made between the hours of 7 A.M. and 4 P.M., and tickets under Rule 5 shall be delivered between

EXISTING RULES.

The following Rules having reference to the undermentioned navigable channels, viz. :—

(1) the river Bhagirathi, throughout its whole course from the Ganges to Nadia, or to its junction with the Hooghly;

(2) the river Hooghly, from Nadia to its junction with the river Matabhanga;

(3) the river Jallanghi, from the Ganges to Nadia;

(4) the river Bhairab, from the Ganges to Nadia;

(5) the river Matabhanga, from the Ganges to its junction with the Hooghly;

(6) such portions of the river Ganges as may be within 5 miles of the entrance for the time being of the Bhagirathi, the Bhairab, the Jallanghi, and the Matabhanga rivers, respectively,

have been passed this day by the Lieutenant-Governor of Bengal under the provisions of sections XI and XII of the "Canals Act, 1864" (No. V, B.L.C.), and will have effect from and after the 1st September 1879.

1. Except as may be herein provided, every vessel, before leaving any toll-station, shall pay tolls in accordance with Schedule A appended to these rules.

2. The tonnage of every vessel shall, for the purpose of the Canals Act, 1864, and of these rules, be determined by the following measurements :—

(*a*) The product of half the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depths from the water-line to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches; and the measurement of the breadth and depth in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c*) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 25 maunds is to be omitted; exceeding 25 and not exceeding 50 maunds is to be charged as 25 maunds only; exceeding 50 maunds and not exceeding 75 maunds is to be charged as 50 maunds only; and exceeding 75 maunds as 75 maunds only. Above 1,000 maunds no fraction of 100 maunds is to be charged.

(*d*) In the case of steamers, the tonnage as determined by clauses (*a*), (*b*) and (*c*) shall be reduced by one-half as an allowance for engine and cabin space.

(*e*) In the case of a steamer that has been surveyed under Act VI of 1884, the tonnage entered in the certificate shall be taken to be the tonnage of the steamer for the purpose of these rules, no further deduction being made for engine space.

19. Measurement shall be made between the hours of 6 A.M. and 6 P.M. from April 1st to September 30th, and between 7 A.M. and 5 P.M. from October 1st to March 31st. Tickets under Rule 12 shall be issued within the hours of 7 A.M. and 5 P.M. in summer and 8 A.M. and 5 P.M. in winter.

PROPOSED RULES.

4. Every cargo vessel, immediately after entering the toll station limits, shall proceed to the measuring ghât or to such other place as the Toll Collector may direct, and shall remain there until it has been measured in accordance with these rules. After measurement the vessel shall be removed from the measuring ghât without delay. In any case the person in charge of a vessel shall place it in such situation as he may be required to by the Toll Collector.

5. After measurement the measuring muharrir shall deliver to the person in charge of the vessel a pass in the form appended (Appendix E I) and shall inform such person verbally of the amount of toll payable by him. The person in charge of the vessel shall then take the pass to the Toll Collector's Office, and shall there pay the toll demanded. The Toll Collector shall then deliver to him a ticket in the form appended (Appendix E II), which shall bear the stamp of the Toll Collector's Office, and the signature of the Toll Collector, or in his absence, that of the Toll Daroga. The vessel shall then be entitled to proceed without further charge.

6. The person in charge of a vessel conveying passengers, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which are liable to be injured by detention, shall not be required to attend at the toll office, but shall pay toll to the measuring muharrir at the rate of six annas per oar, as provided in item I of the schedule of tolls hereto annexed; and the muharrir shall deliver to such person a ticket in the form appended (Appendix E III) which shall entitle the vessel to proceed without further charge.

7. (*a*) All tolls are payable on demand, and shall be paid as provided in Rules 5 and 6 before a vessel is allowed to proceed.

(*b*) Provided that vessels belonging to individuals or firms specially approved by the Superintending Engineer of the South-Western Circle, which approval may be withdrawn for any just cause, may be permitted to proceed without prepayment.

(*c*) The person in charge of a vessel approved as in clause (*b*) shall, on passing a toll station, stop and deliver at the station a form specifying such particulars regarding the vessel and its cargo as may be required by the Superintending Engineer, South-Western Circle.

8. The tickets mentioned in Rules 5 and 6 must be kept on board the vessel, and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in Rule 2, and shall demand payment of toll; and unless and until toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of Section IX of the Act.

9. If a vessel on which toll has been duly paid be unable, by reason of the shallowness of the water, or of any other natural obstacle, to pass along any one of the Nadia Rivers, she may be permitted to pass along any other of the rivers without extra charge, except as provided in Rule 13. If the vessel be unable to pass along any of the rivers, the Toll Collector may at his discretion, and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel.

10. The payment of toll at one toll station shall entitle a vessel to travel once along the whole length of the river on which that toll station is situated, whether or no the cargo is changed during the journey, except as provided in Rule 13.

11. A vessel containing passengers, or used for fishing, shall pay toll only once in the same day: provided that no passenger vessel shall be allowed this privilege unless returning empty, or conveying the same passengers as on the first trip. The "day" to be reckoned from midnight to midnight.

12. A cargo vessel, laden or empty, which has paid toll at a toll station, shall not be required to again pay toll if returning to the same toll station on the same day reckoned as in Rule 11, except as provided in Rule 13.

13. A vessel which has been measured and paid toll accordingly shall, in case additional cargo is taken on board, or a part or whole of the original cargo is changed for a cargo on which a higher rate of toll is leviable, be subject to re-measurement whether on the same or another day, reckoned as in Rule 11, and to the payment of the amount by which the total toll leviable on the re-measurement exceeds that originally paid.

14. Passenger boats having on board cargo other than what is necessary for the use of the passengers for the trip and which measure 25 maunds and upwards shall be dealt with as cargo boats.

15. (*a*) Boats having on board only articles which are necessary for the use of the crew for the trip shall be dealt with as empty.

(*b*) Empty jars, tins, casks, bags, or other receptacles used, or to be used only for the purpose of holding cargo, shall not be considered as cargo.

16. No cargo shall be taken out of any boat, whether measured or unmeasured, within toll station limits without the permission of the Toll Collector.

17. Tickets and passes issued in respect of any vessel, boat, raft, or float are not transferable to any other vessel, boat, raft, or float.

18. (*a*) Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls.

EXISTING RULES.

10. Immediately after entering the chowkey limits, the manjee of every cargo vessel shall take such vessel to the measuring ghât, and such vessel shall remain there until it shall have been measured in accordance with the rules for measurement.

11. After measurement shall have been duly effected, the measuring mohurir shall deliver to the manjee of the vessel a pass in the form annexed (Appendix E I), and shall inform the manjee verbally of the amount of toll payable by him.

12. The manjee shall take the pass to the Toll Collector's Office, and shall then pay the amount of the toll demanded from him. He shall then receive a ticket in the form annexed (Appendix E II) which shall entitle him to pass the chowkey limits free of all further charge. This ticket shall bear the stamp of the Toll Collector's Office and the signature of the Toll Collector, or in his absence that of the Toll Darogah.

13. The manjee or other person in charge of a vessel conveying passengers only, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which may be likely to be spoiled by detention, shall not be required to attend at the Toll Office, but may pay toll to the mohurir in charge of the chowkey boat at the rate of four annas for each oar of the vessel, and shall receive from the mohurir a ticket in the form annexed (Appendix E III) which shall entitle such vessel to pass chowkey limits without further charge.

6. If a vessel on which toll has been duly paid be unable, by reason of the shallowness of the water, or of any other natural obstacle, to prosecute her voyage up the river, she may, provided she returns to the toll station without unloading or taking in cargo, be permitted to pass along the other river (if any) without extra charge. If the vessel be unable to pass along either river, the Toll Collector may, at his discretion, and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel.

7. Every boat or vessel carrying passengers, or used for fishing, shall pay tolls only once in the same day: provided that no passenger vessel shall be allowed this privilege unless returning empty or conveying the same passengers as on the first trip. The word "day" in this and the following rule shall mean a day between sunrise and sunset, and shall not mean 24 hours.

8. An empty cargo vessel or boat leaving and returning empty to the station limits on the same day, having paid toll, shall not be required to pay toll a second time. A vessel leaving the chowkey limits laden, and paying toll accordingly, shall not be required to pay toll again if returning empty on the same day

9. Boats or vessels which may have entered the Nadia Rivers unladen or partially laden, and paid toll accordingly, shall, if they receive on board any additional freight, be subject to re-measurement and to the payment of any additional amount of toll which may be leviable on account of the additional maundage.

14. Passenger boats having on board cargo other than what is necessary for the passengers for the trip, and which measure 25 maunds and upwards, shall be dealt with as cargo-boats.

15. Empty boats having on board articles which are only requisite for the subsistence of the crew for the trip shall be considered as empty.

16. No cargo shall be taken out of any boat, either measured or unmeasured, within the toll limits without the permission of the Toll Collector.

17. Tickets and passes are not transferable.

18. Passes collected at the chowkey boats shall be brought back into the Toll Office on the morning of the following day and counterfoiled.

PROPOSED RULES.

(b) In case the person in charge of a boat desires to have a duplicate of the ticket mentioned in Rule 5, in order to make over to the owner of the boat or cargo, or for any other legitimate purpose not constituting an evasion or breach of these rules, the Toll Collector shall issue a duplicate at the time the request is made, whether at the time of issue of the original ticket or subsequently.

19. Any vessel, raft float, or any number of vessels, rafts or floats fastened or connected together in any way, which, by reason of difficulty of proper control, or of excessive over-all length or breadth or depth, is of such a nature as, in the opinion of the Executive Engineer, Nadia Rivers Division, to be likely to cause unavoidable damage to the bandalling or other training or dredging works in the rivers, or to be likely to cause unavoidable obstruction to the traffic by grounding or sinking, is prohibited from passing into or along any of the channels comprised in the Nadia Rivers.

20. A vessel which has been detained under these rules or under Section IX of the Act may not be removed from the Nadia Rivers without the order of the Toll Collector until the toll due has been paid. During such detention the manji, owner or agent, must make arrangements for the safety of the vessel and cargo.

21. All vessels, whether the property of Government or of private owners, are liable for toll, except those exempted by the provisions of Bengal Government Notification No. 261, dated the 21st July 1890.

22. The Supervisor may by written notice, to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or luggees in any specified part of the channels comprising the Nadia Rivers or banks.

23. No person shall wilfully or negligently allow a vessel to sink in the channels comprising the Nadia Rivers without the permission of the Supervisor.

24. In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

25. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the Toll Offices, or other prominent places, calling on those concerned to pay to the Toll Collector all toll which may be due, as well as the expenses incurred on the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure prescribed in Section IX of the Act.

26. The purchaser of a vessel sold under the provisions of Section IX of the Act shall have the right to take it out of the channels comprising the Nadia Rivers on the day of purchase, or within such time as may be allowed by the Toll Collector, without payment of tolls.

27. When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay.
